

How to Declare a Minor in Chemistry

1. You will need to fill in this form and include all the courses that you have or will be taking to satisfy the requirements.
2. Complete a petition form (available from the registrar).
3. Make an appointment with the Chemistry Undergraduate Curriculum Coordinator and bring both forms with you to the meeting.

The Department of Chemistry offers a minor in chemistry to students who wish to enhance their degrees with a strong concentration in this area. The Chemistry minor is open to any student, and a minor is an excellent credential in the eyes of future employers and enhances the records of students. The Chemistry minor provides a broad and general exposure to the traditional areas of the chemical sciences and also specialized areas of modern chemistry. The minor provides sufficient concentration of courses to be able to understand a wide range of chemical phenomena and appreciate the impact of chemical phenomena on both your profession and life experiences.

Admission to the Chemistry minor requires sophomore, or higher, status, students to have completed one year of General Chemistry (I and II) with lab (8 credits) and one year of Organic Chemistry (I and II) with lab (8 credits). Fifteen credit hours of upper division chemistry credits (300 level or above) are required to satisfy the minor and suggested courses are available from the Chemistry department website.

Admissions Requirements:

Sophomore, or higher, status:	YES/NO
One year of General Chemistry (I and II) with lab (8 credits)	YES/NO
One year of Organic Chemistry (I and II) with lab (8 credits).	YES/NO

Coursework (15 credits upper division chemistry credits):

Fifteen credit hours of upper division chemistry credits (300 level or above) are required from a list of suggested courses available at www.esf.edu/chemistry/minor/.

List Courses (above 300 level):

Course no.	Course name	Credits
<i>e.g.</i> FCH 325	<i>Organic Chemistry III</i>	4

Total credits above 300 level (at least 15)

CREDITS (300 level): _____
