RE: Course Changes

DATE: March 30, 2001

The information supplied to the Faculty regarding course changes at the last meeting contains two small errors:

- The revision to WPE 326 will result in WPE 327 being withdrawn as a course offering.
- WPE 454 was voted on although it was not changed and is simply a course that is cross-listed.

Please let me know if anything further is needed to complete this package.
