

David R. Gerber, P.E.  
Vice President  
Construction and Environmental Services  
ARCADIS

Mr. Gerber is a Vice President with ARCADIS, a global engineering consulting firm. Mr. Gerber has more than 21 years of environmental engineering and construction experience specializing in treatment system design, construction, operation, maintenance, and monitoring (OMM), and facility decommissioning and demolition. His experience includes soil and groundwater remediation, water and wastewater treatment, stormwater management, facility decommissioning and demolition, pollution prevention, permitting, storage tank management, and environmental investigations. Mr. Gerber is a senior environmental professional and a highly experienced project manager routinely responsible for many of ARCADIS' largest and most complex environmental programs.
