

John A. Thonet, P.E., P.P.

President

Thonet Associates, Inc.,

Environmental Planning and Engineering Design Consultants

Mr. Thonet is the founder and President of Thonet Associates, Inc., *Environmental Planning and Engineering Design Consultants*, a consulting firm founded in 1980 to provide comprehensive environmental focus to land development projects and to municipal and regional planning. Mr. Thonet has more than 36 years of environmental planning and engineering design experience for land development projects and land use planning programs. His experience includes hydrologic and hydraulic studies for flood plain management, stormwater management and dam-break emergency planning; environmental assessments and impact statements for residential, commercial, industrial and institutional land development projects; preparation of environmentally – based master plans and zoning regulations; and regulatory guidance to private and public clients.

Education

BS, Forest Engineering, SUNY College of Environmental Science and Forestry, 1972
