Environmental Studies Seminar

RESEARCH ETHICS IN ENVIRONMENTAL RESEARCH

Instructor: Dr. Dianne Quigley*

SUNY College of Environmental Science and Forestry, Syracuse

Jan. 27-28, Mar. 30-31, and Apr 27-28, 2012

Fridays, 2:00–4:30pm; Saturdays, 9:30am – noon

This *one credit-hour*, three-weekend workshop on research ethics and cultural competence is designed for graduate students in Environmental Studies, Environmental Science, Environmental Engineering, and related fields. Training on research ethics combined with cultural diversity will prepare participants with new research approaches/methods appropriate to field studies, community-based partnerships and research with cultural groups. Students will learn about required procedures for protecting human subjects, ethical theories, cultural competence theory, and review environmental case studies for community-based, culturally-appropriate approaches.

Dianne Quigley is Adjunct Assistant Professor in ESF's Dept. of Environmental Studies and at Brown University's Center for Environmental Studies, and a lecturer at UMass-Dartmouth. She is the principal investigator of the NSF-funded, Northeast Ethics Education Partnership (NEEP, 2010-13); was principal investigator of a National Institute on Health grant entitled, "Collaborative Initiative for Research Ethics in Environmental Health" (2000-07). Dr. Quigley holds a Ph.D. in Religion from Syracuse University; and a master's degree from Clark University's Environment, Science and Policy Program.
