I. INTRODUCTION

Welcome to the Graduate Program in Environmental Science (GPES) which, along with the undergraduate Environmental Studies Program, and the Randolph G. Pack Environmental Institute, is managed by the Faculty of Environmental Studies. We are delighted that you have joined a unique set of graduate students, faculty, and researchers who share a deep concern for the development and application of multidisciplinary approaches to the stewardship of our natural and built environments.

The operation of GPES is moderately complex. This is a result of the diversity of student backgrounds, the participation of faculty from across the College and Syracuse University, and the curricula design which balances a Core, with Area-of- Study depth, and individualized synthesis.

Hierarchically, the State Education Department and S.U.N.Y. establish basic policy for all graduate programs. Within E.S.F, a comprehensive set of Graduate Policies have been adopted by the College Faculty. These are published in the College Catalog. The policies and the procedures which implement College policy are contained in "Graduate Academic Policies and Procedures - Faculty Handbook" (GAPP). These are available for review with your major professor. Internally GPES has evolved a number of specific policies, procedures, and guidelines for the effective delivery of the program.

This Handbook is intended as our primary guide to GPES for both students and faculty. In keeping with the policy orientation of our program it is appropriate and desirable for all participants to periodically both question why a certain requirement or procedure exists, and to offer constructive criticism through the Faculty's governance structure or informally via discussion. It is only through this dynamic exchange that GPES will continue to evolve and prosper.
II. REQUIREMENTS FOR THE Ph.D. DEGREE

This guide summarizes program requirements and advice for students in the Environmental Policy and Democratic Processes (EPDP) study area of the Graduate Program in Environmental Science (GPES). It may be used as a guideline for program planning for doctoral students in other GPES study areas.

Definition

A. Policy - A formal written statement of organizational purpose and course of action.

B. Procedure - A formal written set of required steps to implement a policy.

D. G.P.E.S. Policy and Procedures - These are contained in this document. Changes to policy are by formal approval of the study area faculty. Individual modifications of the policy may be done by formal petition.

E. Guideline - These are recommendations, not requirements. They may be interpreted by the Major Professor and steering committee as best fits the individual situation without petitions.

Academic Planning

The development of an academic plan is a continuing responsibility of the student and associated faculty which is critical to the successful and timely completion of a Ph.D. program. The planning process addresses two complementary but distinct educational objectives: adequate preparation for and successful completion of the Doctoral Candidacy Exam; and the development and approval of the dissertation research proposal. Students will be assigned a Major Professor upon admission. An initial steering committee will be formed in the first semester of matriculation.

Coursework and the Academic Plan

The Ph.D. including the prior Masters degree (30 credit hours or more) requires the completion coursework only (not MS thesis credit) of a minimum of 60 credit hours (College Policy). E.P.D.P. requires a minimum of 48 cr. hrs. of coursework, excluding thesis or dissertation.

Doctoral Candidacy Examination

The student may request, with the consent of the steering committee, to take the Candidacy exam after completion of 48 hrs credit of coursework. The purposes of the exam are to determine depth and breadth in EPDP including how social science knowledge is developed. The form of the exam will be selected by the examination committee following College Policies.
Research Proposal

Doctoral students are required to produce a research proposal which must be approved and signed by the Steering Committee. Timing for producing the proposal is determined in consultation with the Major Professor. A copy of the approved proposal is to be informally bound (e.g., plastic binding) and placed on file in the Environmental Studies Office. We expect that the student will offer a public presentation of the research proposal through the program's seminar series. A PROPOSAL APPROVAL FORM must be completed (see page 8).

Capstone Seminar

The College's capstone seminar, which presents results of dissertation research to the academic community, required of all doctoral candidates. The seminar frequently is delivered, presented or scheduled immediately preceding the Dissertation Defense Examination.

Dissertation Defense Examination

The examination is conducted by the student's Steering Committee and one or more additional Examiners (a total examining committee of five persons), under the supervision of an Examination Chair appointed by the Dean of Instruction and Graduate Studies. Students are advised to work closely with the Major Professor to schedule meetings and meet deadline.

Schematic Diagram

See the diagram on the following page for an overview of program requirements and progress toward the degree.
NOTES

1. The Steering Committee "is composed of the major professor and at least two faculty members or other qualified persons." See the College Catalog 2007-2008.

2. The Steering Committee "should be appointed within the first semester". The Steering Committee" must be established and must have met by the end of the third semester of graduate study.

3. The Defense Committee "consists of members of the steering committee, and at least one additional faculty member" as Examiner. The Dean of Instruction and Graduate Studies appoints a committee Chair who is not from the student's degree program. See the College Catalog 2007-2008.

4. "Form 5B should be submitted to the Dean's office, according to academic year deadlines.

5. The student "must inform the Dean's office of the agreed upon date, time, and location for the defense at least two weeks in advance of the defense date." Form 5A.

6. One final copy must be delivered to each member of the Defense Committee, including the Chair, at least seven (7) days prior to the scheduled defense date Form 5A. The student should be aware that Syracuse University faculty serving on the committee may require the delivery of their copies at least fourteen (14) days prior to the defense.

Approval of Proposals

Students are required to prepare a Ph.D. Dissertation Proposal. This proposal must be formally approved by the student’s Major Professor and Steering Committee using this form (below) for signatures with a copy of the proposal attached.

Although progress in developing a proposal may vary from student to student, students are normally required to produce an approved proposal before registering for more than 3 credits of ENS 999 Dissertation Research.

Content of Proposals

Proposals will vary in content according to the nature of the planned research. In general, these should be succinct statements of research plans, normally about 10 pages in length, describing the planned work as follows:

1. Tentative title.
2. Research objective or hypothesis.
4. Key data or information sources.
5. Method of analysis.
6. Expected results.
7. Timetable for research, writing, and defense examination.
8. Brief bibliography.

PROPOSAL APPROVAL

Student Name: ____________________________________________________________

Dissertation Title: ________________________________________________________

Approved:

Major Professor __________________________________ Date ________________

Committee Member __________________________________ Date ________________

Committee Member __________________________________ Date ________________

A copy of the approved proposal should be affixed to this form, and copies of this document with attached proposal should be provided to each of the above signers, and to the Environmental Studies Office, 107 Marshall Hall.

7/2007
III. FACULTY GOVERNANCE

A. Environmental Studies

The Environmental Studies Faculty is organized with an Executive Committee, and two standing Committees: Undergraduate, and Graduate. The Graduate Committee includes the Program Director, instructors of record of the core courses, coordinators for each Area of Study, and a student representative. Its role is to monitor the program's effectiveness, and to develop proposals for the consideration of the full Faculty. In 1994 the Faculty amended its bylaws to formally permit student membership. The text of this section III D is contained below.

"III.D. Student Representation to Faculty Meetings"

1. GPES Student representatives to the Faculty Meetings must be full-time students.

2. Representation to Faculty Meetings shall consist of two students: one GPES Ph.D. student and one GPES Masters student.

3. Student representatives will serve a one-year term and have the following responsibilities:
   a. Each representative is expected to attend all Faculty Meetings and must inform other representatives and the Faculty Chair if unable to do so.

   b. Each representative may vote on Faculty Meeting agenda items with one vote per student representative. Graduate student representatives will not vote on matters that are exclusively undergraduate.

   c. Each student representative is expected to serve as a liaison between the graduate student constituency and ES Faculty.

4. Selection of Student Representatives.
   a. A meeting will be announced early in the Fall semester by the Graduate Program Director. The purpose of this meeting is to inform graduate students of representatives' responsibilities and choose graduate student representatives.

   b. The list of Student Representatives to Faculty Meetings will be presented to the Faculty Chair no later than October 1.

B. Areas of Study

GPES' primary vehicle for engaging multidisciplinary subjects is the Area of Study. These represent the loci of faculty research and scholarship interests which have been formally approved by the Faculty. Minimum thresholds include three active faculty including a coordinator, and five graduate E.S.F. courses. Areas of Study are periodically revised to reflect evolving interests and resources. Areas of Study are structured as standing subcommittees, with a coordinator, and participating Major Professors. Subcommittees may have student members.

All students in GPES are admitted directly into an Area of Study. Students are strongly encouraged to network with their peers and to actively participate in their Area of Study.
IV. RESOURCES

Environmental Studies has limited staff, facility, and financial resources. Over the past few years we have developed management approaches for their effective and equitable utilization.

A. Environmental Studies Office Suite 106-107 Marshall Hall

The suite has three primary segments: Production Staff, Records and Communications, and the Chair's Office. The Office maintains files (unofficial) of student records, folders of job and research announcements, course syllabi, and internship requests. It maintains a collection of GPES Thesis, Dissertations, Research Proposals, and Internship Reports which are available for reference.

Most students at some time during their studies encounter problems of a personal or academic nature for which they require assistance. An early full discussion of the situation and options is often the key to their resolution. Major Professors, the GPES Director, and the Faculty Chair are all available to facilitate this process. Office staff can assist in making appointments as necessary.

B. Conference Room 105 Marshall Hall

The Conference Room is the setting for Faculty Meetings and GPES seminars, including graduate students' capstone seminars. The room may be scheduled for student meetings. During unscheduled periods it is available for informal graduate student discussions and study. Stored in the conference room are the Faculty's Slide Projector, VCR, TV, Laptop Computer, and LCD Projectors which may be borrowed by graduate students for class presentations.

GPES Mailboxes - Outside 105 Marshall Hall

These are the primary mechanism for internal College and Faculty communications. Students should make it a practice to visit their box at least once a week. The mailboxes should not be used to receive U.S. Mail, and the GPES Office Staff cannot receive personal phone messages for students.

C. Office Space

It has been the general practice of the College that graduate students are provided with a desk space on an as-need basis. Because of limited facilities and the flux of students in residence, the assignment of such space usually takes a few weeks each fall. Students whose Major Professor's primary appointment is on another Faculty, should first ask for space available from that group. GPES has space for approximately 32 students available in B5 Marshall Hall, B7 Marshall Hall and 406B Bray Hall. The Office Staff maintains a list of requests and vacancies. Periodically, GPES arranges with other Faculties to use surplus space on a semester by semester basis.

D. Assistantships

There are two basic forms of assistantships, Graduate (GA), and Research (RA). GA's are awarded by the College each year based on Faculty recommendations. They are primarily used for Teaching Assistantships in undergraduate and graduate courses. In 2006-2007 GPES had 17 semester positions for its approximately 75 graduate students. Each spring students who will be returning in the Fall are notified by the GPES Director of the projected GA allocation and
requested to formally apply. Incoming admitted students are also included in the selection process. A faculty committee prioritizes the applications for administrative action.

As a graduate-research College ESF is involved in numerous externally funded projects most of which involve RA’s. Each project is managed by a Principal Investigator who has the responsibility of selecting staff. GPES has no direct involvement in this process. Students interested in RA’s should discuss opportunities with their Major Professor. Throughout the year the Graduate Office and Research Office circulate research, fellowship, and internship announcements. Students should periodically check their mailboxes, the appropriate ES folders, and the ES bulletin board.

The Edna Bailey Sussman Fund provides stipends to support graduate student summer internship experiences. The Fund has supported approximately 20 ESF students per year, about one-quarter of whom have been GPES students. Sussman supports a broad range of interest areas, from environmental policy, regulation and communication to various environmental sciences. Sussman applications are treated competitively; awards are usually in the range of $4,800 for full-time internship employment. Applications must be filed by the annual application deadline, usually in early March. Awards are announced in early May. Proposal guidelines are available in February from the Office of Instruction and Graduate Studies located in 227 Bray.
APPENDIX A
ENVIRONMENTAL STUDIES FACULTY AND STAFF
106 Marshall Hall
315-470-6636

Staff:

PATRICIA A. GIBEAULT (Pat)
107 Marshall Hall, 470-6528
Secretary for Graduate Program/Receptionist

PATRICIA L. KIELECKI (Patty)
106 Marshall Hall, 470-6636
Secretary for Chair/Undergraduate Program

Faculty:

RICHARD C. SMARDON (Wetland Assessment, Public Participation, Decision Making).
106 Marshall Hall, 470-6576

JOHN P. FELLEMAN (Environmental Decision Making, Information Policy).
108B Marshall Hall, 470-6550

303 Illick Hall, 470-4741

PATRICK J. LAWLER (Environmental Communication).
13C Moon Library, 470-6914

JACK P. MUNNO (Sustainable Development, Ecological Economics, Great Lakes Policy).
24 Bray Hall, 470-6720

MARK S. MEISNER (Environmental Discourse and Communication).
112 Marshall Hall, 470-6908

SHARON D. MORAN (Environmental Policy, Government and Water Resources).
113 Marshall Hall, 470-6990

BRENDA J. NORDENSTAM (Risk Perception and Analysis).
108A Marshall Hall, 470-6573

SUSAN L. SENECAH (Environmental Communication and Policy).
109 Marshall Hall, 470-6570
Participating Faculty:

**EMANUEL J. CARTER** – Environmental and Community Land Planning  
312 Marshall Hall, 470-6665  
(City Planning, Urban Design, Rural Development, Design History and Theory).

**ELEN M. DEMING** – Environmental and Community Land Planning  
310 Marshall Hall, 470-6556  
(Landscape History and Design).

**CHERYL S. DOBLE** – Environmental and Community Land Planning  
322 Marshall, 470-6553  
(Community Design and Planning; Public Participation in Decision Making Process; Rural Planning and Land Use Management).

**THEODORE A. ENDRENY** – Water and Wetland Resources  
207 Marshall Hall, 470-6565  
(Watershed Modeling).

**CHARLES A. HALL** – Environmental Systems and Risk Management  
354 Illick Hall, 470-6812  
(Systems Ecology).

**RICHARD S. HAWKS** – Environmental and Community Land Planning  
331 Marshall Hall, 470-6541  
(Community Design and Planning; Natural Resource Information in the Land Use Design Process).

**DAVID L. JOHNSON** – Environmental Systems and Risk Management  
419 Jahn Lab, 470-6829  
(Particle Analysis, Analytical Methods, Heavy Metals).

**CHARLES N. KROLL** – Environmental Systems and Risk Management & Water and Wetland Resources  
309 Bray Hall, 470-6825  
(Decision Analysis).

**DIANE M. KUEHN** – Environmental Communication and Participatory Processes  
211A Marshall Hall, 470-6561  
(Recreation Management and Research).

**LAURA K. LAUTZ** – Water and Wetland Resources  
206 Bray Hall, 470-4765  
(Hydrology and Watershed Management).

**KARIN E. LIMBURG** – Water and Wetland Resources & Environmental Systems and Risk Management  
249 Illick Hall, 470-6741  
(Limnology, Watershed Ecology).
VALERIE A. LUZADIS – Environmental and Natural Resource Policy
307 Bray Hall, 470-6693
(Natural Resource Economics).

MYRON J. MITCHELL – Environmental Systems and Risk Management
210 Illick Hall, 470-6765
(Biogeochemistry of Forest and Aquatic Ecosystems; Decomposition Processes; Stable Isotopes).

TSUTOMU NAKATSUGAWA – Environmental Systems and Risk Management
110 Illick Hall, 470-6767
(Toxicology, Insect and Vertebrate Toxicology, Microbiology).

RUDOLPH M. SCHUSTER – Environmental and Community Land Planning
210 Marshall Hall, 470-4863
(Ecological and Recreational Planning).

S. SCOTT SHANNON – Environmental and Community Land Planning
323 Marshall Hall, 470-6537
(Community Design and Planning; Rural, Traditional, and Neo-Traditional Community Form; Historic Landscape Preservation; Computer Applications and Design Simulation).

JOHN STELLA – Water and Wetland Resources
206 Marshall Hall, 470-4902
(Watershed Science and Management, Stream Ecology).

JOHN E. WAGNER – Environmental and Natural Resource Policy
304 Bray Hall, 470-6971
Adjunct Faculty:

JERROLD ABRAHAM
SUNY Health Science Center, Director of Environmental and Occupational Pathology, 750 East Adams Street, Syracuse NY 13210 (Public Health).

STEVE BRECHIN
Syracuse University, Maxwell School of Public Policy, Anthropology, Room 209 Maxwell Hall, Syracuse, NY 13210, 443-2200 (Natural Resources Sociology).

DAVID DRIESEN
Syracuse University, Law College, 446 College of Law, Syracuse, NY 13210, 443-4218 (Environmental Law).

PATRICK DURKIN
5100 Highbridge Street, Apt 30A, Fayetteville, NY 13066, 637-9560 (Chemical Risk Assessment and Documentation).

STEVEN EFFLER
110 Hillsboro Parkway, Syracuse, NY 13214, 466-1309 (Water Quality Modeling).

MARLA EMERY
U.S. Forest Service, S. Burlington, VT, (Non-Commodity Forestry, Traditional Environmental Knowledge).

JOHN FERRANTE
Department of Environmental Conservation, Division of Water, 615 Erie Boulevard West, Syracuse, NY 13204, 426-7507 (Watershed Ecology).

RICHARD GOLDSMITH
Syracuse University, Law College, 446 College of Law, Syracuse, NY 13210, 443-2533 (Environmental Law).

MARLA JABBOUR
SUNY/ESF, Assistant Dean, Instruction and Graduate Studies, Director of Honors Program, 227 Bray Hall, Syracuse, NY 13210, 470-6595 (Environmental History).

JOHN KUSLER

DAVID NOWAK
SUNY/ESF, USDA Forest Service, 5 Moon Library, Syracuse, NY, 13210, 448-3212 (Research Forester).

SAMUEL SAGE
Atlantic States Legal Foundation, 658 W. Onondaga Street, Syracuse, NY 13204, 475-1170 (Community Building).

LISA WARHECKE
256 Greenwood Place, Syracuse, NY, 13210, 428-6024 (Geographic Information Systems and Public Administration).
APPENDIX B.1

DOCTOR OF PHILOSOPHY (Ph.D.) DEGREE

ENVIRONMENTAL COMMUNICATION AND PARTICIPATORY PROCESSES

STUDY AREA

Advising Guide

The following is provided as a guide to the types of courses available for Ph.D. study. You should consider your individual research program and consult with your major professor to build a cohesive, balanced program of study.

General Requirements. A minimum of 60 course credit hours are required for the Ph.D. degree, including any credits transferred from a masters program of study or courses taken at another institution. See the notes at the end, the Handbook for other requirements. Your program of study should reflect a balance among the following categories, build mastery in your area/s of interest, and be planned in consultation with your Major Professor. The following courses are offered as a guide to the kinds of appropriate courses available in each category. Be aware that other course opportunities will be available throughout your residency at ESF.

Environmental Science Seminar. You are required to take an environmental science seminar each semester you are in residence. You may take ENS 797 Environmental Science Seminar, which is usually offered only as an audit, or other appropriate seminars offered through other departments at ESF (for credit or audit) or Syracuse University (for credit only).

Applied Social Science.
- ANT 683 Social Movement Theory
- EST 550 Environmental Impact: Analysis, Principles and Strategy
- EST 608 Environmental Advocacy Campaigns and Conflict Resolution
- EST 612 Environmental Policy and Governance
- EST 626 Concepts and Principles of Sustainable Development
- EST 635 Public Participation and Decision Making
- EST 640 Environmental Thought and Ethics
- EST 650 Environmental Perception and Human Behavior
- FOR 564 Soil and Water Conservation Policy
- FOR 665 Natural Resources and Environmental Policy
- FOR 753 Advanced Natural Resource and Environmental Policy
- GEO 558 Sustainable Development
- IST 552 Information Systems Analysis Concepts and Practices
- IST 607 Government and Information
- IST 642 Electronic Commerce
- IST 643 U. S. Federal Information Policy
- LAW 716 Environmental Law
- PPA 709 Public Organizations and Management
- PPA 730 Problems in Public Administration
- PPA 753 Executive Leadership and Policy
- PSC 602 Public Policy Analysis: Theory and Practice
- PSC 705 Science and Public Policy
- SPC 514 Language and Meaning
SPC 535 Communication and Community
SPC 546 Seminar Legal Communication

**Research Methods.**

EST 604 Social Survey Research Methods for Environmental Issues
EST 605 Qualitative Methods
PPA 722 Quantitative Analysis
SOC 614 Introduction to Qualitative Research
SPC 655 Speech Criticism

**Area of Study.**

CMN/ENS 696 Mass Media and Environmental Affairs
EST 608 Environmental Advocacy Campaigns and Conflict Resolution
EST 612 Environmental Policy and Governance
EST 626 Concepts and Principles of Sustainable Development
EST 635 Public Participation and Decision Making
EST 640 Environmental Thought and Ethics
EST 650 Environmental Perception and Human Behavior
FOR 690 Seminar and Workshop on Natural Resources Policy and Management
EFB 521 Principles of Interpretive Programming
EFB 617 Perspectives on Interpretive Design
MIS 545 Decision Support Systems
MIS 745 Decision Support Systems
MAR 741 Marketing Community and Public Service Agencies
SHR 703 Interpersonal and Group Skills for Managers
ANT/LILN/SOC 570 Topics in Sociolinguistics
ANT 652 Cultural Aspects of Public Policy
ANT/WSP Culture and Folklore
ANT 675 Culture and Disputing

**Doctoral Thesis Research.** Students typically take from 6-12 credits of ENS 999 Doctoral Thesis Research although no required number is set. These credits reflect progress made in thesis research. They can be used to support the development of the thesis proposal (e.g., literature review, directed readings) as well as the actual research and writing of the thesis. These credits are awarded in consultation with your major professor.

**Other Requirements.** In addition to course and credit hour requirements, you are required to:

1. Form a Steering Committee of your Major Professor and two additional faculty members by the end of the second semester of full-time study. Form 2A is available in Marshall 107.

2. File a Form 3B (Academic Plan), attaching a program Plan Sheet, with the Office of Instruction and Graduate Studies (227 Bray) by the end of the second semester of full-time study. Form 3B is available in Marshall 107.

3. Offer a Capstone Seminar, reporting either on planned or completed Thesis activity.

4. Successfully complete a written comprehensive exam.

5. Successfully complete Thesis defense.
APPENDIX B.2

ENVIRONMENTAL AND COMMUNITY LAND PLANNING
STUDY AREA

Advising Guide

GPES provides study guides of course listings for its masters degree students. These lists may be useful for doctoral students and their major professors in developing individual programs of study.

**Environmental Science Seminar.** Doctoral students are expected to attend the ENS 797 Environmental Science Seminar or equivalent each semester they are in matriculated.

**Applied Social Science.**

- EST 608 Environmental Advocacy Campaigns and Conflict Resolution
- EST 612 Environmental Policy and Governance
- EST 626 Concepts and Principles of Sustainable Development
- EST 635 Public Participation and Decision and Making
- EST 640 Environmental Thought and Ethics
- EST 650 Environmental Perception and Human Behavior
- ENS 611 Environmental Institutions
- ENS 635 Public Participation and Decision Making
- LSA 621 Community Design and Planning Studio
- LSA 652 Community Development and Planning Processes

**Research Methods.**

- EST 604 Social Survey Research Methods for Environmental Issues
- EST 605 Qualitative Methods
- LSA 640 Research Methodology
- APM 635 Multivariate Statistical Methods
- PPA 722 Quantitative Analysis
- PSC 602 Public Policy Analysis Theory and Practices

**Study Area Coursework.**

- LSA 611 Natural Factors Analysis
- LSA 621 Community Design and Planning
- LSA 651 Comprehensive Land Planning
- LSA 652 Community Development and Planning Process
- LSA 654 Ecology in Landscape Design and Planning
- LSA 680 Seminar in Urban Design
- LSA 681 Cultural Landscape Preservation
- LSA 696 GIS in Planning
LSA 696 Community Planning Workshop
EST 608 Environmental Advocacy Campaigns and Conflict Resolution
EST 612 Environmental Policy and Governance
EST 626 Concepts and Principles of Sustainable Development
EST 635 Public Participation and Decision Making
EST 640 Environmental Thought and Ethics
EST 650 Environmental Perception and Human Behavior
EST 673 Environmental Information and Policy
