The 2005I Joachim Forum will be held in SUNY ESF in conjunction with the annual meeting of the Syracuse Pulp & Paper Foundation Inc. (SPPF)

This year's program consists of a seminar and a panel discussion of the management issues involved in Nanotechnology & Innovation in the Forest Products Industry. Three lectures by leading experts in some innovative uses & potential of nanotechnology to enhance the sustainability in the pulp and paper industry constitute the seminar.

This is followed by an expert panel discussion on Management of Innovations in Pulp and Paper Industry.

Scholars and management professionals from SUNY ESF, other institutions, industry, government agencies and the environmental non-profit sector are invited.

Representatives of senior management from the pulp & paper industry, members of the SPPF, board members, undergraduate & graduate students and members of the Paper Science & Engineering Faculty at SUNY ESF are expected to attend.

Students are registered for a 1 credit course in management and professional skills .

## JOACHIM SEMINAR

DAY I: NANOTECHNOLOGY POTENTIAL & INNOVATIONS

CHAIR: B. V. RAMARAO, PROFESSOR, PSE, SUNY ESF

139 BAKER LABORATORY 4PM- 6.30 PM

1. PHILIP JONES, Director, IMERYS, Atlanta GA
2. TED WEGNER, Senior Research Scientist, U.S. Forest Products Laboratory, Madison, WI
- 3 AMAR MOHANTY, Associate Professor, School of Packaging, Michigan State University, Lansing MI
4. YU-LIN DENG, Associate Professor, School of Chemical Engineering, IPST & Georgia Institute of Technology, Atlanta GA

## JOACHIM DINNER (INFORMAL)

7 PM

## JOACHIM PANEL

DAY II: MANAGEMENT OF INNOVATIONS IN THE PULP & PAPER INDUSTRY

CHAIR: G. RONALD BROWN, Research Director, MEAD WESTVACO CORP

139 BAKER LABORATORY 4PM- 6.00 PM

1. J McNUTT, Center for Paper Business & Industry, Atlanta GA. .
2. BRUCE EVANS, Technology Manager, Specialty Minerals Inc., Bethlehem PA.
3. K G RAJAN, VP Technology, Solvay Paperboard, Syracuse NY.
