

Measure the plots starting west from CL 30.
 The lines seem to be a little further apart
 than 10 ch. ∴ may be able to get 5-
 1 acre plots in between CL 30 + the Reservoir Rd.

RED = FILE NAME

These 10 one acre plots
received domestic limestone
at rate of $\frac{1}{2}$ T./acre
in Oct. 1963.

Hand broadcast. *M.A.*
