

SAF meeting – September 8, 2003

National Convention

- Funds – The chapter cannot spend all of its money to reimburse everyone's expenses for the convention. This chapter will spend \$1500 to help with expenses. We will receive around \$3500 from the National SAF. We will also be getting an SAF traveling grant of \$500.

In order to receive money for expenses, two conditions apply:

- 1) You must serve on a committee
- 2) You must volunteer at the SAF convention

Everyone who plans on attending, and would like to receive some compensation, you must register for the convention by October 1st so you may be put on the volunteer schedule.

- Volunteers will be receiving ESF gold shirts from the Alumni office to where area the convention. Please indicate what size you would like next to your name on the list of who's going.

- Quizbowl has more helpers and everything is running smoothly so far.

- The band is ready for the Icebreaker. It will be acoustic, and not plugged in. They are asking for money only for gas and food. The Icebreaker game will consist of being given a species name and you will have to find the Genius you belong to. This will help mix the students up from different schools, and make them meet new people. There will be 10-15 people per group.

- National Student Assembly has the speakers for the conservation vs. preservation debate. Mike was thinking about this SAF chapter picking apples and bringing them to NSA. He also needs to make sure there is money for food.
