## Leading Sustainability

**Start Dates: Tuesday, Sept. 21 / Wed., Sept. 22, 2010  
Friday, October 1 / Sat., October 2, 2010**

The leading sustainability program will enable employees from a business, institution or not-for-profit to develop or advance a sustainability plan for their respective organizations. Participants will walk away understanding the elements and assessment tools that can be used for sustainability planning. As organizations become more green and sustainable they can not only save operation expenses but will improve the environment and be more socially responsible for their communities. The Syracuse metropolitan area is developing a reputation to be on the leading edge of sustainability - this course is about how to do it!
