

## **Timber Harvest Planning and Implementation**

### *A Best Management Practices Workshop for Foresters, Loggers and Forest Landowners*

**October 3, 2000**  
**Ellicottville, NY**

**October 5, 2000**  
**Northern Adirondacks, NY**

*Sponsored By—*

**SUNY-ESF Faculty of Forestry**  
**NYS Department of Environmental Conservation**  
**New York Logger Training**  
**Cornell Cooperative Extension**  
**Domtar Industries, Inc.**

When trees are harvested from a forest there is the potential to disturb forest soils, resulting in sediment-laden runoff, which can adversely impact streams, rivers, lakes, ponds and wetlands. Before and during times of harvest, the use of Best Management Practices (BMPs) is strongly encouraged to minimize the contamination of drinking water supplies, and maintain fish and wildlife habitat.

The objective of the workshop is to show you practical BMPs, and offer you the necessary tools and skills to implement effective practices in your day-to-day forest management activities.

#### **Continuing Education Credit:**

**SAF Certified Forester Credits:** This workshop has been approved for 4 Continuing Forestry Education Category I credits.

**New York Logger Training approved.**

**Workshop Location:** October 3: Cooperative Extension, Ellicottville, NY; October 5: Northern Adirondacks, Lyon Mt. (tentative).

Directions will be sent with acknowledgment of registration.

# Timber Harvest Planning and Implementation

## *A Best Management Practices Workshop for Foresters, Loggers and Forest Landowners*

### Preliminary Program

- 8:30  
a.m. Registration
- 9:00 **Welcome and Introductions**  
*René Germain, SUNY-ESF*
- 9:10 **Why We Need BMPs: Impact of Erosion on Water Quality and Long-term Forest Productivity**  
*Russell Briggs, SUNY-ESF*
- 10:00 **Planning for the Harvest**  
*René Germain, SUNY-ESF*
- 10:45 Break
- 11:00 **Linking the Proper BMP Technique to the Site and Post-harvest Re-vegetation**  
*Ken Kaspyrzk, Senior Utilization Forester, NYS DEC*
- 11:45 **Revegetating Landing and Skid Trails**  
*John Peck, Soil and Water Conservation District Staff*
- Noon Lunch
- 1:00-  
4:00 **Field Component** - Expose the group to various BMP practices such as broad-based dips, reverse grading, insloping, outsloping, water bars and stream-crossings techniques. Opportunity to enhance communication between participants, which will include loggers, foresters and landowners.
