

**Silviculture and Wildlife Habitat Management in
Northern Hardwood Forests:**
A Workshop for Foresters and Natural Resource Professionals

**November 1-2, 2000
Huntington Wildlife Forest
Newcomb, NY**

*Sponsored By—
State University of New York
College of Environmental Science & Forestry*

Silviculture primarily affects wildlife habitat by changing the composition and structure of the vegetation. This workshop, through a combination of classroom presentations and field trips, will examine those components of wildlife habitat that foresters can alter through silviculture.

We will achieve our objectives by first identifying the important wildlife habitat features common to northern hardwoods. The program will subsequently compare even- and uneven-aged silviculture with respect to differences in their effects on wildlife habitat conditions. The integration of wildlife and wildlife habitat considerations into sustainable forestry programs will be addressed throughout the workshop.

Workshop Location: Huntington Wildlife Forest, Newcomb, NY

Directions will be sent with acknowledgment of registration.

Continuing Education Credit:

SAF Certified Forester Credits: This workshop has been approved for 8 Category I Continuing Forestry Education credits.

Questions? Call ESF Continuing Education at (315) 470-6891.

Silviculture and Wildlife Habitat Management in Northern Hardwood Forests:

A Workshop for Foresters and Natural Resource Professionals

**November 1-2, 2000
Huntington Wildlife Forest
Newcomb, NY**

Preliminary Program

Wednesday, November 1

8:30 **Registration**

9:00 **Welcome**, *René Germain*, Director, Continuing Forestry Education, SUNY ESF

9:15 **Wildlife and Wildlife Habitat as a Critical Part of Sustainable Forestry**, *Scott Haulton*, SUNY ESF

10:00 **Even-aged Silvicultural Systems and Their Application at Huntington Wildlife Forest**, *Ralph Nyland*, SUNY ESF

10:45 **Break**

11:00 **The Effects of Even-aged Silvicultural Systems on Wildlife Habitat**, *Stacy Haulton*, SUNY ESF

11:30 **Case Study- White-tailed Deer and Forest Management in the Adirondacks**, *Dick Sage*, SUNY ESF

12:00 **Lunch**

1:00 **Field Component:** Examine the relationships between even-aged silviculture and wildlife management

5:00 **Icebreaker at Huntington Lodge**

7:00 **Dinner at dining hall**

Thursday, November 2

8:00 **Uneven-aged Silvicultural Systems and Their Application at Huntington Wildlife Forest**, *Ralph Nyland*, SUNY ESF

8:45 **Stand Structure of Uneven-aged Silvicultural Systems and Its Effect on Wildlife Habitat in Northern Hardwoods**, *Scott Haulton*, SUNY ESF

9:30 **Break**

9:45 **Case Study: Black bears – Wildlife Habitat Considerations on a Stand Scale**, *Dick Sage*, SUNY ESF

10:30 **Field Component:** Examine the relationships between uneven-aged silviculture and wildlife management (bag lunch provided)

2:00 **Adjourn**

**Silviculture and Wildlife Habitat Management in
Northern Hardwood Forests:**
