

SUNY Center For Brownfield Studies

Environmental Technologies Case Studies Addressing Implementation Challenges

Date: June 19, 2003

Location: SUNY College of Environmental Science and Forestry Campus
140 Baker Lab
Syracuse, NY 13210

PARTICIPANTS:

Municipal planners, financial advisors, consultants, attorneys who seek to learn about basic application of remedial technologies at Brownfield sites. No scientific expertise required.

OBJECTIVES:

1. Introduce participants to remedial and restoration technologies.
2. Enable participants to identify technical challenges and consider technological innovations.
3. Share experiences of how appropriate use of technology helped meet our economic development goals.

Evaluate shared experiences to identify new strategies for future applications.

FORMAT: Active presentation and discussion of case studies with educators, regulators and consultants.
