

Nadav Malin
BuildingGreen, Inc.

Nadav Malin is vice president of BuildingGreen, Inc. and serves as editor of *Environmental Building News*, a monthly newsletter on environmentally responsible design and construction and coeditor of the *GreenSpec* product directory. He is chair of the Materials and Resources Technical Advisory Group for the U.S. Green Building Council's LEED™ Rating System, a LEED Faculty Member, and a LEED Accredited Professional. He was a principal author of the Applications Reports for the *Environmental Resource Guide* that compares the environmental value of different building materials in various applications, and he coauthored the chapter on building materials for *Time Saver Standards*. He has written numerous articles for publications including *Architectural Record* and *The Construction Specifier*. Nadav consults and lectures widely on sustainable design, with a particular focus on green materials. In addition to running LEED training workshops, he has taught seminars for various USGBC chapters, CSI chapters, state AIA chapters, and private architecture firms. He also served on the U.S. team for Green Building Challenge, manages the U.S. Department of Energy's High Performance Buildings Database project, and leads the content development team for Web and software resources at BuildingGreen.com.
