---

**OCC Sustainability Institute**

Established in fall 2007 with and an award of \$700,000 from NYSTAR to create new academic and workforce training programs:

**New Academic Programs**

- New Energy & Environmental Systems academic program in development
- Architectural Tech curriculum being revised to include building performance/energy efficiency, and green building
- Automotive Tech undergoing revision/expansion to include new emissions testing and hybrid vehicles

---

---

---

---

---

---

---

---

**OCC Sustainability Institute**

**Workforce Training Programs**

- OCC is working with the USGBC to provide an introductory LEED course for contractors and skilled trades people this spring
- OCC is partnering with SUNY ESF to provide its photovoltaic installer training
- Next Steps: the new academic programs created with NYSTAR support will be adapted to create new workforce training programs for the automotive industry, building design and construction industry, energy industry, and environmental systems industry

---

---

---

---

---

---

---

---

**OCC Sustainability Institute**

**Assessment of Campus Operations**

- Improvements will be used as a Learning lab for students and the community and to reduce the environmental footprint of the college

**Community Outreach**

- Institute includes community representatives who will help shape the programs offered and help integrate sustainability initiatives into the community at large
