9/11/2008
J. M. Hassett
1) Welcome

a) Welcome to the Review Classes for the Fundamentals of Engineering and the Professional Engineering Examination review classes. We at SUNY-ESF are glad you have decided to partake of this opportunity. As you may know, this course was sponsored until recently by the local chapter of the American Society of Mechanical Engineers. We (SUNY-ESF) assumed responsibility for this effort beginning in 2006.

2) Things you need to know

a) **Schedule**: Please see the schedule attached to this document, and check for updates at [http://www.esf.edu/outreach/pd/2008/pe/](http://www.esf.edu/outreach/pd/2008/pe/).

b) **Review materials**: You are responsible for your review materials. We suggest the following items.

iii) You may wish to buy a review manual for the specific afternoon exam you will take. Again, see [http://ppi2pass.com/ppi/PPIShop](http://ppi2pass.com/ppi/PPIShop) for possibilities.

iv) You might want to avail your self of on-line practice examinations such as the ExamCafe ([http://ppi2pass.com/ppi/ECMain](http://ppi2pass.com/ppi/ECMain)).

v) For the Professional Engineer Examination

(1) PE Review material particular to your discipline. See [http://ppi2pass.com/ppi/PPIShop](http://ppi2pass.com/ppi/PPIShop) (recommended) or the material described at [http://www.kaplanaecengineering.com/kaplanAECengineering/family_id`116`menu_id`1195`product_list.aspx](http://www.kaplanaecengineering.com/kaplanAECengineering/family_id`116`menu_id`1195`product_list.aspx).

e) **Cancellations:** We may have to cancel a class because of weather. The instructor will call SUNY-ESF and the staff there will send an email to all class participants. Check your email before departing for class, or call 315-470-6817 between 3:30-4:00 p.m. on the day in question.

f) **Examination fees:** The examination or reexamination fee for Part A and Part B are listed on the NYS Education Department website. See [http://www.op.nysed.gov/pelic.htm](http://www.op.nysed.gov/pelic.htm) for further details including due dates for applications and other important information.

3) What to expect

a) We cannot cover all the material you need to review. Therefore, the classes are designed to provide a context within which your review is more productive. What we hear again and again from participants that have passed the examinations: Practice, practice, practice. Do as many practice problems as you can. Take advantage of the on-line review exams cited above (see also [http://www.eitexam.com](http://www.eitexam.com) for more practice exams).

b) We will ask you to fill out an evaluation form at the end of each instructional unit. We will use the information gathered for the improvement of instruction, so your thoughtful responses are important to us.

4) What we expect of you

a) Your willing participation.

Good luck in your endeavor!
