I'll do it. I hope it's clearly explained, or maybe I'll go read that old paper I was on, for a touch-up.

Dear Ruth,

We could use your help. We have invited over 20 reviewers and are still coming up short.

We can extend the deadline to fit your needs if that helps. Please let us know if you can help knowing the deadline is very flexible.

Sorry I'm so slow. I was a co-author on a paper on this subject. Joel Blum is more knowledgeable than me, I am not a geochemist. I hope you got enough reviewers. If not, I'll do it.

Amanda Ash Dasch was his student, who now works for Shell. She might be better than me!

RE: Manuscript ID cjfr-2022-0326: Evaluating the use of Ca/Sr and <sup>87</sup>Sr/<sup>86</sup>Sr ratios to track Ca sources in

sugar maple in Ontario

Dear Dr. Yanai:

Because I have not heard from you regarding your interest or disinterest in reviewing the manuscript entitled "xxxxxxx" for the Canadian Journal of Forest Research, your invitation has been automatically declined.

If this e-mail arrives shortly after you declared your interest, or disinterest, in reviewing to the editorial office, I apologize that I was unable to input your response before the automated e-mail was triggered.

The Canadian Journal of Forest Research is run on a not-for-profit basis for the benefit of the global forest research community, and relies on quality reviewers to accomplish its mission. I hope that you will be able to accept our next invitation to review.

Sincerely,  
Jacki

Jacki Costigan
