

# **CSTEP** COLLEGIATE SCIENCE AND TECHNOLOGY ENTRY PROGRAM APPLICATION

**FALL-SPRING 2008-2009**

## **SUNY College of Environmental Science and Forestry**

The Collegiate Science and Technology Entry Program (CSTEP) is a national award-winning program sponsored by SUNY ESF and New York State Department of Education. It is an enrichment plan designed to foster students' academic success in preparing for professional licensure or careers in the scientific, technical or health-related fields.

Services provided to students are academic counseling, skills development, free tutoring, enrichment activities, internship/research opportunities, graduate school/career preparation, specialized workshops, and field trips. CSTEP provides opportunities for scholars to create and maintain portfolios and resumes, research graduate school information, and attend educational conferences.

Upon becoming a CSTEP scholar at SUNY ESF, individuals must maintain a minimum 2.3 G.P.A; complete appropriate paperwork; meet with a counselor once per semester; attend at least two workshops, events or activities per semester; and attend all general meetings and become a member of a professional scientific organization. **Failure to meet minimum requirements will result in a negative standing within the program.**
