

APRIL 1ST-APRIL 22ND

ESF is participating in a national electricity reduction competition called the Campus Conservation Nationals, the largest short-term electricity reduction competition in the world!

Awareness

Foster a culture of energy conservation and awareness

Engage

Engage, educate, and motivate people to conserve energy in their buildings

OUR GOALS

Achieve

Achieve measurable reductions in electricity use, and related greenhouse gas emissions

Change

Highlight the ability of behavior change tools such as competitions and public commitments to conserve energy

ABOUT THE COMPETITION

Five student teams will compete against each other to save the most energy by impacting behavior changes in their assigned buildings: Illick, Baker, Jahn, Walters, and Moon (Bray is the Admin+ team)

OUR MISSION

Achieve the greatest percentage reduction in electricity consumption on campus, compared to a prior two-week baseline.

GET INVOLVED!

Educate

Educate yourself on different ways that you can help reduce energy in your office, classroom, labs, and other campus spaces.

Pledge

Make a commitment to reduce energy from April 1st-22nd by signing a door hanger and placing it on your office or lab door handle for the three week competition.

Help

Turn off lights in unoccupied spaces, use task lights, turn off your computer when not in use, reduce plug loads, and turn off unused appliances/gadgets.

Join a Team

If you have pride or an affiliation with one of the buildings on campus; join their team by adding your name to the commitment board in Gateway and help save energy in that building!

A special thank you to the students in EST 427/ 627 (Environmental and Energy Auditing with Dr. Teron), ESF Physical Plant and Facilities Staff, and Josh Arnold our Campus Energy Manager!
