

## Huntington Lectures Series at the Adirondack Interpretive Center

**Thursday, July 11th, 7pm**

*Trail Makers: 100 Years of the Northville-Placid Trail*

**Doreen Alessi-Holmes**

*Conservator & Collections Manager*

One hundred years ago Edwin "Doc" Noyes, and Howard Rowe cleared the way for the Northville-Placid Trail, a remote backcountry trail taking hikers on a journey through the heart of the Adirondacks. Join Conservator and Collections Manager of the Adirondack Experience, the Museum on Blue Mountain Lake, Doreen Alessi-Holmes to learn about the history of this roughly 138-mile trek across the Adirondacks.

**Thursday, July 18th, 7pm**

*Northwest Passage by Kayak*

**Eileen Visser**

*General Bio Course Coordinator/Outdoor Studies Instructor*

Join Eileen Visser (Biology, SLU) as she describes the first single season human-powered traverse of the Canadian Arctic Archipelago. This elusive sea route was long impassible due to thick year-round ice but climate change has opened the channels between high arctic islands, allowing their four person team to cross the 1800 mile Northwest Passage adventure of tackling sea ice, wind, cold, and polar bears to experience this 103 day immersion in nature July-October 2023.

**Thursday, July 25th, 7pm**

*Wild Encounters: A Guide to Wildlife Photography*

**Andrew Hudnut**

*Wildlife Photographer*

Explore the art and ethics of wildlife photography, from essential gear and techniques to finding and respecting subjects, in this comprehensive guide for photographers of all levels.

**Thursday, August 1st, 7pm**

*Lyme Disease, It's Complicated!*

**Dr. Mark Soloski**

*Professor Emeritus at John Hopkins Rheumatology*

Those with a love of the outdoors always want to be safe. Join Mark Soloski, Ph.D., Emeritus Professor of Medicine at John Hopkins School of Medicine, to talk about how we might get Lyme disease, what it looks like in humans and how we can prevent getting ill!

**Thursday, August 8th, 7pm**

*Adirondack Inventory and Monitoring Camera Trap Network*

**Paul Jensen**

*DEC Senior Wildlife Biologist & adjunct Professor at SUNY ESF*

Join Paul Jensen, wildlife biologist with NYS DEC to learn more about the Adirondack Inventory and Monitoring Camera Trap Network that began in the 2020 pandemic. The network's goals are to collect and share data on wildlife populations, monitor species particularly sensitive to climate change, and to give SUNY College of Environmental Science and Forestry students in the region real-world training.

**Thursday, August 15th, 7pm**

*What's the Fuss About Aquatic Invasive Species in the Adirondacks?!?*

**Brian Greene**

*Aquatic Invasive Species Coordinator*

Why do we have all these people wearing blue vests and inspecting boats? Why do we hear about invasive milfoils and round gobies in the news? How can we prevent and manage aquatic invasive species. Join Brian Greene, Aquatic Invasive Species Coordinator from the Nature Conservancy's Adirondack Park Invasive Plant Program, to learn about invasive species and what you can do to prevent them from causing harm.

**All lectures begin at 7pm at the  
Adirondack Interpretive Center  
and are free thanks to the  
support of the Adirondack Park  
Institute**
