

ABOUT ESF

ESF has 26 undergraduate majors, 22 leading to the Bachelor of Science degree, one leading to the Bachelor of Landscape Architecture degree, and three leading to the Associate of Applied Science degree. Our programs cover chemical engineering, paper engineering, bioprocessing engineering, environmental sciences, environmental health, sustainable resources management, environmental resources engineering, environmental biology, environmental design, environmental policy, environmental social science, and the utilization of natural resources.

ESF's programs are administered through eight academic departments and the interdisciplinary Division of Environmental Science. The A.A.S. programs are conducted at ESF's Wanakena Campus in the Adirondacks under the auspices of the Department of Sustainable Resources Management (SRM).

ESF's Graduate School oversees nine graduate programs, each with multiple options, and all focusing on science, engineering, or management.

ESF's academic programs rely heavily on experiential learning, including indoor and field laboratories, internships, research experiences, and applied capstone projects. In the most recent National Survey of Student Engagement (2020), ESF graduating seniors reported having significantly more research experiences, culminating senior experiences, and service-learning experiences, than peer comparison groups.

The overall student/faculty ratio is 14:1; the undergraduate ratio is 12:1.

For the class entering 2019, the six-year graduation rate calculated in 2025 was 71.3%. The SUNY average for the year 2017 is 66%. This compares to a national Public average of 63.5%, according to SUNY fast facts website. In a survey of 2024 baccalaureate graduates (80.1% response rate), 97% reported employment or graduate school placement within 6 months of graduation; 90% of respondents reported working in a position related to their majors.
