

BACHELOR OF LANDSCAPE ARCHITECTURE

The BLA program is designed for those students desiring to enter the profession of landscape architecture either directly after completing the degree or after completing graduate school. This is a professional degree with an emphasis on the skills and knowledge required to qualify the graduate to take the Landscape Architecture Registration Examination (L.A.R.E.).

Accreditation

The degree is accredited by the Landscape Architectural Accreditation Board (LAAB).

The B.L.A. degree is granted at the end of four years of study and requires the successful completion of 126 credit hours. Students are accepted into the lower-division landscape architecture program as freshmen or as sophomore transfers.
