ESF Course Proposal
Committee on Curriculum - ESF Faculty Governance
Office of Instruction & Graduate Studies

This course proposal form should be completed when introducing a new course or a revision of an existing course. The proposal will be reviewed by the Committee on Curriculum, or, in the case of minor revisions, will be approved administratively by the Associate Provost for Instruction.

This Course Proposal must be completed according to the guidelines provided in Course Proposal Form – Instructions and Guidance. Please see the last page of Course Proposal Form – Instructions and Guidance, for instructions on how this Course Proposal should be submitted to the Committee on Curriculum for review.

Date:

1. Course Information:

1.1 Course Prefix and Number: RMS 387
Course Title: Renewable Materials for Sustainable Construction
(If a new or renumbered course, please check with the Registrar regarding the use or reuse of the course number)

1.2 □ This is a New Course.
OR
□ This is a Major Course Revision
OR
☒ This is a Minor Course Revision

If this is a Course Revision, please see Course Proposal Form – Instructions and Guidance to determine if your revision is major or minor. Indicate below the reason(s) for the revision.

(Please check all that apply)

☒ Course Number/Division  □ Learning Outcomes  □ Institutional Resources
□ Title  □ Concepts, Content  □ Semester Offered
□ Credit hours  □ Catalog Description  □ Course Inactivation
□ Pre- or Co-requisite(s)  □ Instructional Methods  □ Course Reactivation
□ Format  □ General Education

1.3 General Education knowledge and skills area (if applicable): If none, check here ☒

□ American History  □ Humanities  □ Other World Civilizations
□ The Arts  □ Mathematics  □ Social Sciences
□ Basic Communication  □ Natural Sciences  □ Western Civilization
2. **Proposer Need Statement:**

2.1 Describe why this course (or course revision) is needed to meet current or proposed goals and outcomes of the program or College, and, if a revision, provide an explanation of and justification for the revision. Conversion of CME prefix to RMS prefix

2.2 List the pre-requisite or co-requisite courses (taught within the home department or taught by another department) and explain their relationship to the proposed course. None

2.3 Explain the impact of this course in meeting the goals and outcomes of other Departments/programs (if any). Required for FNRM, Construction Management

2.4 If the proposed course is designed to fulfill SUNY General Education Requirements, the Associate Provost for Instruction must review this proposal to ensure that General Education Requirements will be met for the specified knowledge area (See Instructions and Guidance). Please provide an explanation of how this course fulfills SUNY General Education Requirements.

2.5 What are the staffing requirements (instructor, TA, Lab tech, etc.) for this course? If a new course, are there new staffing needs or are there adequate staff members already in place? If a revised course, are there additional staffing needs? Instructor and GA

2.6 What Department (or extra-Department) resources are or will be made available to support the course or course revision? Classroom and Wood Engineering Lab

2.7 Anticipated Enrollment (enter where applicable)

<table>

2.8 Anticipated frequency of class meetings. Twice per week
3. DETAILED COURSE DESCRIPTION

3.1 COURSE IDENTIFICATION AND FORMAT:

3.1.1 Course Prefix and Number: RMS 387
3.1.2 Course Name: Renewable Materials for Sustainable Construction
3.1.3 Credit Hours: 3
3.1.4 Semester (check all that apply): Fall ☑ Spring ☐ Summer ☐
3.1.5 Format (check as appropriate): Lecture ☑ Online ☐ Lab ☐ Field ☐
Other ☐ (explain)
3.1.6 Contact hours per week: 3
3.1.7 Prerequisite(s) – if none, please enter “None” (Be specific, as Upper Division courses and Graduate courses will likely have some pre-requisite knowledge) None

3.2 SCOPE:

3.2.1 Level of Instruction (check one, or two if a shared resource course):
   Lower Division ☐ Upper Division ☑
   Beginning Graduate ☐ Advanced Graduate ☐

3.2.2 Relation to curriculum or to other ESF or Syracuse University courses:
   a. Is this a required course? No ☐ Yes ☑
      If Yes, please list the program(s) for which it is a requirement: Renewable Materials Science
   b. Is this an elective course within your department? No ☑ Yes ☐
   c. Is enrollment in this course restricted? No ☑ Yes ☐
      If Yes, please explain:
   d. Are other ESF or SU courses similar or identical to this course? No ☑ Yes ☐
      If Yes, please identify the courses:
   e. Is this course a shared resource offering (i.e. is there a graduate or undergraduate concurrent offering)? No ☑ Yes ☐
      If Yes, what is the course number of the concurrent offering?

3.3 STUDENT LEARNING OUTCOMES:

Identify the student learning outcomes associated with this course. 1. Describe concepts about sustainable/renewable materials used in construction

2. Identify the value of wood and other plant materials as materials for construction

3. Describe in writing why wood is particularly adapted to be a structural material that is both renewable and sustainable

4. Explain and contrast the chemical, anatomical, and physical nature of wood and major plant materials used in structural applications
5. Classify species of wood for use in specific construction applications

6. Identify ten major species of wood used in construction

7. Explain why wood behaves as it does during use by consideration of the fundamentals of wood cell wall structure and the cellular organization of wood

8. Plan for the most effective use of wood and other renewable materials as construction materials by understanding how their properties affect their use.

3.4 MAJOR CONCEPTS, PROCESSES or TOOLS:

Identify the course content and themes (e.g. Table of Contents) consistent with the learning domains and outcomes. The use of traditional and non-traditional renewable materials in construction applications are presented with emphasis on wood. Renewable materials include wood and other botanicals that can be grown, harvested and replanted (renewed). Students will be introduced to the concept of carbon sequestration during growth of the material and how the use of wood and other botanicals in construction captures carbon. Greatest emphasis in the course will be on material properties and how properties relate to function. The course will consist of discussions, lectures and some demonstrations of properties of wood, bamboo, and other renewable materials and their use in construction.

3.5 INSTRUCTIONAL METHODS:

Identify the methods used to meet the course outcomes, as well as the principal instructional methods. Lecture, demonstrations, examinations, quizzes, in class laboratory exercises.

3.6 CATALOG DESCRIPTION

Provide the course description using the precise format to be included in the ESF catalog (i.e. course number and title; format; brief description; semester(s) offered; and pre-/co-requisites). Please do not exceed 1000 characters. CME 387. Renewable Materials for Sustainable Construction. (3)

Three hours of discussion, lecture and demonstration per week. Properties and uses of wood and other renewable materials as a major construction materials. Identification and knowledge of the major wood species and their applications in construction. Fall.

3.7 COURSE HISTORY:

Provide the dates of prior approval of this course, and its revision history. This course was first listed under the number WPE 8 in the 1959 College of Forestry catalog. It was previously taught under a Wood Technology number. By the Faculty Action of 5/7/68, WPE 8 was renumbered WPE 388. By a subsequent Faculty Action on 1/28/70, WPE 388 was renumbered WPE 487, effective 9/1/70. Minor changes were made on 1/26/68 and 1/28/70. WPE 487 was renumbered WPE 387 by the Faculty Action of 12/19/73. Course description was revised by Faculty Action on 2/24/76. Credit hours changed from 2 to 3 by Faculty Action of 3/27/80. The name was changed...

3.7.1 Relationship to current ESF courses

This course is replacing a current ESF course ☒ YES ☐ NO

If NO, then proceed to section 4 below.

If YES, then provide below the number and name of the course to be deactivated and removed from the catalog once this course proposal has been approved:

Course Number (of the course to be replaced) CME 387
Course Name (of the course to be replaced) Renewable Materials for Sustainable Construction

If the course to be replaced is used by departments other than the department sponsoring this proposal, please indicate below which departments are affected and the date they were notified about the course replacement.

Department: FNRM Date of Notification: August 28, 2017
Department: Date of Notification:
Department: Date of Notification:
Department: Date of Notification:
4. Institutional Impacts:

This section pertains to forecasting institutional resource needs to support the course or course revision. Provide clear statements regarding the needs and current availability (or absence) of resources. Note that, if this is a course revision, only the impacts of the revision should be included.

Staffing needs: No change–Instructor and GA

Classroom resources (e.g. physical facilities in a laboratory, lecture hall, flexible space, academic computing):
Wood ID Lab (Room 159 Baker) and Wood Products Engineering Laboratory

Technology Resources:
Whiteboard, computer with document camera and projector

Computing Resources (software licensing, hardware, access):
None

Library Resources (subscriptions, services):
None beyond basic Moon Library services

Transportation Requirements (budget, fees, fleet vehicles):
None

Forest Properties or Field Practicum Facilities:
None
5. Health and Safety Considerations:

Will any of the conditions or situations outlined below be present in association with the course? Yes / No

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>5.1. <strong>Will substances with any of the following properties be used during instruction:</strong> flammability, toxicity, corrosivity, reactivity, registered pesticide, legally controlled, or other characteristics with the potential to cause harm or injury?</td>
<td>☐ / ☒</td>
</tr>
<tr>
<td>5.2. <strong>Will any physical hazards be present during instruction?</strong> (e.g., machines that need safety guards; razor blades or syringes; compressed gases, etc.)</td>
<td>☒ / ☐</td>
</tr>
<tr>
<td>5.3. <strong>Will any biological hazards be present during instruction?</strong> (e.g., handling animals (rabies or hantavirus); cultures or stocks of infectious agents (fungal spores, viruses, bacteria, etc.).</td>
<td>☐ / ☒</td>
</tr>
<tr>
<td>5.4. <strong>Will any radiation hazards be present during instruction?</strong> (e.g., radioisotopes, X-rays, ultraviolet rays, lasers, etc.)</td>
<td>☐ / ☒</td>
</tr>
<tr>
<td>5.5. <strong>Will any electrical equipment that, due to its design, location, or method of use, pose any threat to safety during instruction?</strong> (Give considerable thought to electrical use outdoors, or any potentially wet location.)</td>
<td>☐ / ☒</td>
</tr>
<tr>
<td>5.6. <strong>Will there be any personal safety issues related to the class?</strong> (e.g., due to time of day or location, at the end of any organized class exercise, will students be in danger of physical assault, etc.)</td>
<td>☐ / ☒</td>
</tr>
<tr>
<td>5.7. <strong>Will any students be driving official state or research sponsored land or water vehicles during any class or instructional exercise?</strong></td>
<td>☐ / ☒</td>
</tr>
<tr>
<td>5.8. <strong>Will any type of personal protective equipment be necessary during class exercises?</strong> (e.g., hard-hats, eye/face protection, hearing protection, hand/foot protection, lab coat, visibility clothing, etc.)</td>
<td>☒ / ☐</td>
</tr>
</tbody>
</table>

If the answer was “Yes” to any of the **HEALTH AND SAFETY** questions, please explain: Demonstrations of wood testing will use testing equipment equipped with guards; students will be provided with safety glasses

For lab and field courses to which all answers are “no”, you should explain that here, also. Normally, we would expect some safety precautions for such courses.
6. Coordination and Consultation

Emails/letters, as noted below and attached to this proposal, or signatures below, indicate that the affected departments, programs or units have been notified of this proposal and have had an opportunity to assess the impact of the proposal on their respective units.

Affected Academic Department(s) or Program(s) – other than the sponsoring department:

Forest and Natural Resources Management
