

Agenda
Committee on Curriculum
October 11, 2011 Meeting

The meeting will be in 122 Jahn (Chemistry conference room just inside the front door on the right) at 9:30 on Tuesday October 11. Agenda will include:

1. Handling Gen Ed petitions (hopefully, even easier than in the past)
2. Mechanics of handling course and curriculum proposals (merge course proposal and detailed course description?)
3. Keeping a working-draft catalog for next year
4. Synching the catalog with department web sites
5. Toward web-based course and curriculum submission?
6. Next meeting (Nov 21 or 22?)

These items are mostly FYI at this point. I expect we will spend most of the time on item 2. There is a class coming in at 11:00, so we have to be out by then. If you are wondering what we are all about, check out the bylaws:
