SUNY ESF holds emergency drill

8/19/2004 3:53 PM
By: News 10 Now Staff

The SUNY College of Environmental Science and Forestry (SUNY ESF) conducted an emergency drill this morning.

The exercise included both on-campus and off-campus crews responding to a car fire.

Organizers say it appears to have been a success.

"I think it's a very good learning experience for us, I think it's something we need to do and will continue to do during different shifts at different times of the day. I thought it was very rewarding for us. To work with the fire department is valuable, to have the Fire Department on campus to learn where our buildings are. It was a very valuable experience," said Paul McGuinness.

School officials say the drills help them form better relationships with off-campus emergency response teams.
