#### OFFICE OF CAREER SERVICES

#### INTRODUCTION

The Office of Career Services is pleased to present the results of the Class of 2010 Graduating Student Survey. The following data are representative of the post-graduation activities of degree recipients from December 2009, May 2010 and August 2010. This report is based on the responses from 321 out of 392 ESF degree recipients, representing an overall response rate of **81.9 percent.** At the associate degree level, there were 24 respondents out of 29 total degree recipients, representing an 82.8 percent response rate. At the undergraduate degree level, there were 236 respondents out of 285 total degree recipients, representing an 82.8 percent response rate. At the graduate degree level, there were 61 respondents out of 78 total degree recipients, representing a 78.2 percent response rate.

The 2010 Graduating Student Survey was administered in the following ways. As a part of December 2009 graduation, the survey was highlighted in the newsletter to all graduates and a presentation was made to all attendees of the annual rehearsal. Information was also included in communications to May 2010 graduates and a table was staffed having each student complete the survey before picking-up their cap and gown. The above identified strategies proved valuable in obtaining accurate contact information for follow-up with the following additional strategies. The survey was e-mailed to graduates in July of 2010, with a reminder e-mail sent in late November. In addition, a hard copy of the survey was mailed to non responders in late November and a reminder post card and e-mail were sent in late December. Phone calls were made in the middle of February 2011 to those graduates from whom there had not yet been a response. Finally, a request was sent to all faculty and staff via the campus new listsery for their assistance in helping to identify the post-graduation activities of any remaining non responders.

On behalf of the college, a special thank you is extended to the Class of 2010 for their assistance and contributions to this report.

Below are summary highlights from the data collected, please note that these statistics are representative of the 321 respondents. To add greater transparency to the summary highlights and the post-graduation activity of the graduates, individual components of these data are categorized for your reference.

• The overall number of associate, undergraduate and graduate degree recipients, who are employed and attending graduate school is 75.7 percent.

#### **Associate Degree**

•	Employed Full-Time:	4
•	Employed Part-Time:	3
•	Continuing Education:	15

#### Undergraduate Degree

	0 0	
•	Employed Full-Time:	109
•	Employed Part-Time:	32
•	Continuing Education:	31

#### Graduate Degree

•	Employed Full-Time:	39
•	Employed Part-Time:	4
•	Continuing Education:	6

- 47. 4 percent of associate, undergraduate and graduate degree recipients reported being employed full-time.
- For the Class of 2010, 15.9 percent reported that they are continuing their studies full-time.
- 71.3 percent of those employed full-time indicated that their position was related to their ESF major.
- The average salary for SUNY-ESF undergraduates in 2010 was \$38,521.
- 77.2 percent of employed undergraduates reported that they found their position within three months after graduation.
- 58 percent of undergraduate respondents indicated that they participated in a student club or organization during their time at ESF.
- 74.1 percent of graduate students indicated that they participated in research projects with faculty while at ESF.
- The most effective method by which graduates find employment is through networking. 50.4 percent of all respondents reported that they obtained their position through personal contacts and networking or by applying directly to the organization.
- The following list represents the employers of the Class of 2010:

• 57.6 percent of undergraduates and 68.9 percent of graduates who identified part time or full time employment within their field of major found employment in New York State.

- Within New York State 43.4 percent of undergraduates along with 60.0 percent of graduates found employment in Central New York.
- The following list represents the graduate schools currently being attended by the Class of 2010:

Alfred State College of Technology
City College of New York (CUNY)
Ohio State University
Syracuse University
Texas Tech University

Providence College University of Massachusetts Amherst

Stanford University
University of Miami
SUNY at Buffalo
University of Michigan
SUNY Binghamton
University of Pennsylvania

SUNY Cortland University of Wisconsin- Madison
SUNY ESF Virginia Polytechnic Institute

The remainder of this report provides summary data for the entire class of 2010, specific faculty department data and a geographic summary of employment. Upon request, a full report as well as the 2009 report is available in hard copy. Please feel free to contact me directly with your questions and comments.

Sincerely,

## John Turbeville

John E. Turbeville

Career Development Officer

# **SUNY-ESF Graduating Senior Survey: Summary Report for 2010**
