Meghan M. Platt, P.E.  
Teaching Assistant  
Westhill Central School District  
Syracuse, New York

Ms. Platt is completing her inaugural year as a teaching assistant at the elementary level. Ms. Platt has more than 18 years of environmental engineering and construction experience. Her areas of expertise include environmental site assessments, environmental investigations, soil and groundwater remediation, compliance and permitting activities, and the management of oil and gas operations. Ms. Platt's experience also includes water and wastewater treatment design and construction as well as operation, maintenance, and monitoring activities for treatment facilities. Ms. Platt historically served as the remediation group section manager for a medium sized consulting firm in which she lead the implementation and successful completion and closeout of clients' environmental projects.
