PJ Snyder, P.E.
Project Manager/Associate
GEI Consultants, Inc. P.C.
Ithaca, New York

PJ is a civil engineer with a wide range of experience in planning, design, and construction phase engineering services for environmental, geotechnical and geo-structural projects. He has worked on numerous environmental remediation and dam rehabilitation projects, both in the design and construction phase, and has also been an integral part of the team for the design and construction of foundation systems, excavation support systems and many other civil, environmental, and geotechnical construction projects. PJ is also experienced in supporting and maintaining interoffice collaboration for large and complex design projects, promoting design standardization, and managing the development of company-wide CAD standards.

PJ has extensive management and engineering experience in the following areas:

- Preparing and reviewing calculations
- Developing and coordinating design and construction drawings
- Authoring and/or reviewing contractor submittals
- Developing cost estimates and construction specifications
