Charles N. Kroll, PhD, PE

Professor Environmental Resources Engineering SUNY College of Environmental Science and Forestry Syracuse, NY 13210 cnkroll@esf.edu; (315) 470-6699

EDUCATION

- Cornell University, School of Civil and Environmental Engineering. Doctor of Philosophy in Civil Engineering (Environmental and Water Resource Systems Engineering). January 1996. Thesis Title: Censored Data Analyses in Water Resources. Major Professor: Dr. Jery Stedinger Minor Professors: Dr. Wilfried Brutsaert Dr. Michael Walters
- Tufts University, Department of Civil and Environmental Enginering. Master of Science in Civil Engineering. August 1989. Thesis Title: Estimation and Usage of Baseflow Recession Constants. Major Professor: Dr. Richard Vogel Minor Professors: Dr. Linfield Brown

inor Professors:	Dr. Linfield Brown
	Dr. Jack Ridge

• **Tufts University**, Department of Mechanical Engineering. Bachelor of Science in Mechanical Engineering. May 1987. Graduated Magna Cum Laude.

PROFESSIONAL EXPERIENCE

- Director of the Graduate Program in Environmental Science, SUNY College of Environmental Science and Forestry, Syracuse, NY, 2019 present.
- Chair, Environmental Resources and Forest Engineering, SUNY College of Environmental Science and Forestry, Syracuse, NY, 2008 2011.
- **Professor**, Environmental Resources and Forest Engineering, SUNY College of Environmental Science and Forestry, Syracuse, NY, 2009 present.
- Associate Professor, Environmental Resources and Forest Engineering, SUNY College of Environmental Science and Forestry, Syracuse, NY, 2002 2009.
- Visiting Scientist, National Institute of Water & Atmospheric Research Limited (NIWA), Christchurch, New Zealand, Spring 2006.

- Assistant Professor, Environmental Resources and Forest Engineering, SUNY College of Environmental Science and Forestry, Syracuse, NY, 1996 2002.
- Lecturer, School of Civil and Environmental Engineering, Cornell University, Ithaca, NY, 1995 1996.
- **Teaching Assistant**, School of Civil and Environmental Engineering, Cornell University, Ithaca, NY, 1991 1995.
- Instructor, School of Civil and Environmental Engineering, Cornell University, Ithaca, NY, Summer 1992, 1994, and 1996.
- Consultant, Cornell Information Technologies, Cornell University, Ithaca, NY, 1992.
- Staff Engineer and Staff Hydrologist, GZA GeoEnvironmental Technologies, Inc., Newton Upper Falls, MA, 1989 1991.
- Research Assistant, Civil and Environmental Engineering Department, Tufts University, Medford, MA, 1987 -1989.

TEACHING AND ACADEMIC HONORS

- SUNY Chancelor's Award for Excellence in Teaching, 2014.
- Tufts University Department of Civil and Environmental Outstanding Achievement Award, 2010.
- ESRI Award for Best Scientific Paper in Geographic Information Systems, 1st Place, ASPRS, 2007.
- **ESF Foundation Award for Exceptional Achievement in Teaching, SUNY** College of Environmental Science and Forestry, 2004.
- Excellence in Teaching Award. School of Civil and Environmental Engineering, Cornell University, Award given for continued excellence as a teaching assistant, 1994 academic year.
- John Perry Award for Teaching. School of Civil and Environmental Engineering, Cornell University, Award given to best teaching assistant in department, 1993.
- **Employee Commendation Award,** GZA GeoEnvironmental Technologies, Inc., Award given for developing new soil vapor extraction modeling protocols and promotional materials, 1990.

MEMBERSHIPS AND CERTIFICATIONS

- Certified Professional Engineer, New York State, License Number 082971, 2005.
- Chair of the SUNY ESF Campus Review Committee (CRC) for Tenure and Promotion, 2015 2017.
- Study Area Leader, Graduate Program in Environmental Science, Environmental Monitorings and Modeling, 2012 2017.
- ERE Representative to SUNY ESF CRC, 2011 2017.
- Chair of ERE Department Review Committee for Tenure and Promotion, 2011 2017.
- Associate Editor, Water Resources Research, 2003 2005.
- Undergraduate Curriculum Coordinator, Environmental Resources and Forest Engineering, SUNY ESF, 2006 2009.
- Member of International Association of Hydrological Sciences (IAHS) working group on Low Streamflow Prediction at Ungauged Basins (PUBs), 2006 2013.
- Member of IAHS Panta Rhei working group on Anthropogenic and Climatic Controls on Water Availability (ACCuRAcY), 2015 2018.
- SUNY ESF Representative, Consortium of Universities to Advance Hydrologic Science, Inc. (CUAHSI), 2004 2007.
- Advisor Forest Engineering Club, SUNY ESF, 2000-2009.
- Board of Directors, Cayuga Lake Watershed Network, 2007 2008.
- Reviewer for Water Resources Research, Journal of Hydrology, Journal of Hydrologic Engineering, Journal of Water Resources Planning and Management, Advances in Water Resources, Canadian Water Resources Journal, Environmental Protection Agency, Department of Agriculture, and National Science Foundation.
- Member United States Hydrologic Frequency Analysis Work Group.
- Member of the American Society of Civil Engineers (ASCE).
- Member of the American Geophysical Union (AGU).
- Member of Tau Beta Pi (national engineering honor society).
- Member of the Graduate Program in Environmental Studies: Environmental Systems and Risk Management Group and Water and Wetland Resource Group, SUNY ESF
- Passed OSHA 40-hour hazardous waste health and safety training course.

FUNDED RESEARCH (only primary Principal Investigator awards listed)

Developing drought triggers and indicators using the National Water Model: A case study to improve the U.S. Drought Monitor in support of the Northeast DEWS, \$199,994 (ESF: \$65,794, Role: Co-Principle Investigator, Collaborators: Arthur DeGaetano, Cornell, and Craig Ferguson, SUNY Albany, 2019 – 2021.

A Decision Support System to Develop, Analyze, and Optimize Urban and Community Forests, \$285,340, Role: Principle Investigator, Collaborators: Ted Endreny, SUNY ESF, Dave Nowak, USDA Forest Service, and Scott Maco, Davey Tree, USDA Forest Service, US Department of Agriculture Forest Service National Urban and Community Forest Program, 2016-2020.

- A New i-Tree Tool for Assessment Forest Impacts on Urban Ecosystems, \$257,183, Role: Principle Investigator, Collaborators: Ted Endreny, SUNY ESF, and David Nowak, USDA Forest Service, US Department of Agriculture Forest Service National Urban and Community Forest Program, 2011-2015.
- An Evaluation of Permeable Pavement, \$69,894, Role: Principle Investigator, National Grid, 2012 2014.
- SUNY ESF Information Technology, \$238,000, Role: Principle Investigator, US Department of Education, 2009-2010.
- *Urban Forest Spatial Modeling*, \$75,000, USDA Forest Service, Role: Principle Investigator, Collaborator: Dr. David Nowak, USDA Forest Service, 2007-2011.
- Consumptive Use Mitigation Plan, \$36,926, Susquehanna River Basin Commission (SRBC), Role: Principle Investigator, Collaborator: Dr. Zhenxing Zhang, SRBC, 2007.
- Improving the Estimation of Low Streamflow Statistics at Ungauged River Sites, \$87,000, USDA Career Enhancement Award, Role: Principle Investigator, 2005-2007.
- An Assessment of New Advances in Low Streamflow Estimation and Characterization, \$155,000, United States Geological Survery (USGS), Role: Principle Investigator, USGS, 2004 – 2006.
- *The Impact of Forest Management on Hydrology and Biogeochemistry,* \$72,000, United States Department of Agriculture (McIntire-Stennis), Role: Principle Investigator, Collaborators: Elizabeth Boyer and Myron Mitchell, SUNY ESF, 2001 -2004.
- A National Assessment of Low Streamflow Estimation Methodology, \$363,000, Role: Principle Investigator, Collaborator: Rich Vogel, Tufts University, United States Environmental Protection Agency and National Science Foundation 1999 – 2003.
- The Development of a Regionalized Approach to Estimate Low Streamflow Frequency at Ungauged River Sites in the Northeastern United States, \$41,000, USGS Water Resources Institute, 1997-1999.
- The Effect of Forest Harvesting on Streamflow Generation and Water Quality in a Catskill Mountain Watershed, \$72,000, USDA-CSREES/McIntire Stennis Program, Role: Principle Investigator, Collaborator: Dr. Jeffrey McDonnell, SUNY ESF (now of Oregon State University), 1997-2000.

CONFERENCES

Conferences Organized

Global i-Tree Science & Users Symposium: Discovering the Value of Your Forest, SUNY ESF, Syracuse, NY, June 2019.

Sessions Convened

- New Methods for Hydrologic Drought Characterization, Prediction, and Assessment, Fall AGU Meeting, San Francisco, California, December 2018.
- Sociohydrology: Modeling Feedbacks in Complex Coupled Natural Human Water Systems, Fall AGU Meeting, San Francisco, California, December 2015.
- Urban Ecosystem Services: Monitoring, Modeling, and Management, Fall AGU Meeting, San Francisco, California, December 2015.
- Regional Flood Frequency and the Hydrology of Extreme Events, Fall AGU Meeting, San Francisco, California, December 2000.
- Hydrologic Forecasting and Prediction, Spring AGU Meeting, Washington, D.C., May/June 2000.
- Statistical Methodology in Hydrology, Fall AGU Meeting, San Francisco, California, December 1998.

Presentations

- Wan, T., Kroll, C.N., and Ferguson, C.R. (2021). Assessing the Representativeness of the U.S. Drought Monitor in the Northeastern U.S. Using National Water Model Predicted and Observed Streamflow and Soil Moisture, American Meteorological Society Annual Conference, January 2021.
- Kroll, C.N., Covert, B., Ferguson, C.R., and Wan, T. (2019). An Assessment of the National Water Model's Ability to Reproduce Drought Series in New York State, Fall AGU Meeting, San Francisco, CA, December 9, 2019

- Kroll, C.N, Bhatti, S.J. and Vogel, R.M. (2018). Examination of Probability Distribution Fit to Low Streamflow Series in the United States, Fall AGU Meeting, Washington, D.C., December 10, 2018.

GRADUATE STUDENT TRAINING

Past Graduate Students

Charity, Nyelele, 2020, A Spatial Multi-Objective Approach for Modeling the Ecosystem Services and Benefits of Urban Trees, Curent Position, Post-Doctoral Researcher, UC Irvine, CA.

Jin Lin, PhD, 2020, Sensitivity and Uncertainthy Analyses of an Urban Forest Structure and Function Model, Current Position: Post-Doctoral Researcher, UC Merced, CA.

Brenden Covert, MS, 2019, An Assessment of the National Water Model's Ability to Reproduce Drought Series in New York State, Current Position: Staff Engineer, Anchor QEA, Woodcliff Lake, NJ.

Osama Younis, MPS, 2019, A Distributional Assessment of Low Streamflow Statistics, Current Position: PhD Student, Alberta, Canada.

Naomi Henry, MPS, 2018, Methods for Estimating Flow Duration Curves and Daily Streamflow for Historic and Present Conditions, Current Position: Data Scientist, New York City, NY.

Shumaila Bhatti, MS, 2018, An Examination of Probability Distribution Fit to Low Streamflow Series in the United States, Current Position: PhD Student, SUNY ESF.

Namrata, Shenoy, MPS, 2017, Corporate sustainability within the food industry, Current Position: Environmental Health and Safety, Facebook, Seattle, WA.

Timothy Stagnitta, MS, 2016, A comparison of methods for low streamflow estimation from spot measurements, Current Position: Sanitary Engineer Rhode Island Department of Environmental Management, Providence, RI.

Ethan Bodnaruk, MS, 2016, Urban forest ecosystem service optimization, tradeoffs, and disparities: a spatially explicit decision support tool, Current Position: Project Engineer, Atlantic Testing Laboratories, Syracuse, NY.

Juan Farinha, MPS, 2016, Drought in the Metropolitan Region of Sao Paulo, Brazil, Current Position: Project Engineer, Sao Jose' dos Campos, Brazil.

Ibrahim Game, MS, 2015, A comparison of air dispersion models for estimation PM2.5 and dry deposition to urban trees, Current Position: Environmental Scientist, Togo.

Kelly Metz, MS, 2015, Statistical Methods for Flow Duration Curves, Current Position: Engineer, HDR, Syracuse, NY.

Suzanne Ellsworth, MPS, 2015, A comparison of methods for remediating metals in sediments, Current Position: Staff Scientist, ARCADIS, Syracuse, NY.

Justin Dusseault, MPS, 2015, Environmental management systems and their impact on organizations' environmental performance, Current Position: Health and Safety Coordinator, Corning Inc., Corning, NY.

Maria Theresa Cabaraban, PhD, 2014, Sensivity of an Urban Dry Deposition Model to Input Land Cover, Meteorology, and Air Pollutant Concentration, Current Position: Professor, Xavier University, Philippines.

Roman Yavich, MS, 2013, An Assessment of Watershed Vulnerability Indicators in Northwestern Nicaragua, Current Position: Director of Media and Development, Azuero Earth Project.

Fred Agyeman, MPS, 2013, Effects of Particle Size of Food Waste on Methane Gas Production and Dewaterability of Digestate in Co-Digestion with Dairy Manure, Current Position: Environmental Consultant, Ghana.

Peter Song, MS, 2011, Impact of Multicollinearity on Small Sample Hydrologic Regression, Current Position: Environmental Engineering, Anchor QEA.

Satoshi Hirabayashi, PhD, 2009, GIS Analyses in Environmental Modeling, Current Position: Environmental Modeler, The Davey Tree Company.

Eben Pendleton, MS, 2009, Holistic Modeling of Agricultural Best Management Practices, Current Position: Environmental Engineer, Anchor QEA.

Osman Ahmed, MS, 2009 (Environmental Science), Drought Vulnerability in Northern Kenya, Current Position: Community Development Officer, Kenyan Northern Water Service Board.

Adao Matonse, PhD, 2009, Use of Hillslope Models for Low Streamflow Prediction, Current Position: Post-Doctorate Researcher, New York City Department of Environmental Protection.

Doreen Bwalya, MS, 2007, A Regional Assessment of Hydrological Drought in Southern Africa: A Case Study of Zambia, Current Position: Senior Engineer, Lusaka Water and Sewerage Company Ltd., Zambia.

Andrew Korik, MPS, 2007, Soil Vapor Intrusion and Exposure to Organic Solvents, Current Position: GIS Specialist, ARCADIS, NY.

Satoshi Hirabayashi, MS, 2005, Examining the Impact of Raster Datasets on Flood and Low Streamflow Regional Regression Models Using a Custom GIS Application, Current Position: PhD Candidate, SUNY ESF.

Zhenxing Zhang, PhD, 2005, Advances in Low Streamflow Statistics Estimation Using Baseflow Correlation, Current Position: Research Scientist, Susquehanna Basin River Commission, PA.

Joana Luz, PhD, 2004, Investigating Improvements in Low Streamflow Regression Models, Current Position: Professor, Federal University of Bahia, Brazil.

Adao Matonse, MS, 2003, New Directions in Semi-Distributed Hydrologic Modeling, Current Position: PhD Candidate, SUNY ESF; Engineer, Clough Harbor, NY.

Maryann Ashworth, MS, 2003, Storm Response in Two Adirondack Wetland, Current Position: Environmental Consultant, Albany, NY.

Amanda Baldauf, MS, 2003, The Origin of Onondaga Valley Brines: A Geochemical Investigation, Current Position: Environmental Consultant, Washington, DC.

Christine Reilly, MS, 2002, Estimation of Low Streamflow Statistics Using Baseflow Correlation, Current Position: PhD Candidate, University of Wisconsin, WI.

Thomas Allen, MS, 2002, Effect of Digital Elevation Model Resolution and Digitally-derived Hydrogeologic Indices on the Predictive Abilities of Low Flow Regional Regression Models, Current Position: Engineer, EcoScience Corporation, NC.

John Camp, MS, 2001, The Addition of a Surface Flow Routing Algorithm to a Simple Water Balance Hydrologic Model, Current Position: Engineer, C&S Engineers, NY.

Suzanne Wechsler, PhD, 2000, Effect of DEM Uncertainty on Topographic Parameters, DEM Scale, and Terrain Evaluations, Current Position: Associate Professor California State Long Beach, CA. [Note: While not official PhD advisor, guided PhD research during last year of dissertation.]

Daniel Welsch, MS, 1999, Relationships Between Topography and Chemistry in Subsurface Stormflow, Current Position: Assistant Professor Frostburg State University, MD.

Chia-Tsen Ko, MS, 1998, The Development of Regional Regression Models for Low Streamflow Statistics in the Northeastern United States, Current Position: Environmental Consultant, Taiwan.
