

# Sustainable Design Strategies: A Comparison Between Two Dormitories

**Ben Larsen**, *Associate Partner, Holmes King Kallquist Architects*

## **Abstract:**

This course offers an exploration of modern sustainable building envelope design strategies, focusing on their design, construction, and ongoing performance. Participants will gain a deep understanding of the critical role building envelopes plays in achieving energy efficiency, sustainability, and comfort within buildings. We'll delve into the latest industry standards, best practices, and innovative technologies shaping the field of building envelope design.

## **Presenter Biography:**

**Ben** has spent his career specializing in building envelope forensics and remediation. With a focus on optimizing existing structures and designing for our ever-changing future environment, Ben has worked across several sectors including K-12, higher education, civic, and private construction. His passion for efficient, sustainable, and resilient building envelopes has driven his contributions to the architectural field.
