

Join the Battle

Against Microplastics in Our Waterways

ESF will host a workshop about the hazards presented by microplastics in waterways. Come learn what citizen scientists can do to help solve the problem.

Detecting Microplastics in Waterways With Citizen Science

Oct. 11

Events begin at 8:30 a.m., Gateway Center, ESF Campus

- Keynote by Dr. Marcus Ericksen, researcher, activist and co-founder of 5 Gyres Institute – 1 p.m.
- Discussions with experts including U.S. EPA Region 2 Administrator Judith Enck and others
- Hands-on training in microplastics sampling methods

**Registration and information is available at
www.esf.edu/microplastics.**

Co-hosted by the Syracuse University Environmental Finance Center.

Co-sponsored by EPA Region 2 Trash Free Water and Citizen Science Programs.

Marcus Ericksen
