

Using Landsat to View a Changing New York

Landsat 5, Path 15, Row 30

This is a natural color image of Onondaga Lake on the northwest side of Syracuse acquired on May 13, 1986. There is a building on the southwest side of the lake which looks pretty clear in the image.

Landsat 5, Path 15, Row 30

Data acquired on April 19, 1989 over the Onondaga Lake. The building is disappeared from the image and land cover changed during this time period.
