Summer Session 2014 - Dave Eichorn is Back!

ESF's most recent addition to the Summer 2014 course schedule is **FOR 338/538, Meteorology**, taught by **Dave Eichorn**, climate change expert, meteorologist, ESF Adjunct Assistant Professor – and ESF alum! Dave's engaging course will blend classroom, online and field experiences.

[Register now](#) for this, or one of ESF's other online, field, or on-campus courses!

6th Annual Biotechnology Symposium: Opening the Biotechnology Toolbox

May 15 - 16, 2014 / Gateway Center, SUNY-ESF

This year's event has a theme of "Opening the Biotechnology Toolbox" and will feature plenary presentations on Biotechnology Development in New York; Core facilities in New York; Resources for growth in New York; Bridges between Academia & Industry; and Public Perception of Biotechnology.

The Symposium will also include sessions on Biofuels & Bioproducts, Nanotechnology, Bioremediation, The Hill Collaboration on Environmental Medicine, Projects at New York Biotechnology Centers, Biosimilars, and Agricultural Biotechnology.

We will have presenters from Empire State Development, Brookhaven National Laboratory, CenterState CEO, MedTech, Roswell Park Cancer Institute, the Research Foundation for SUNY, Yale Law School, Cornell University, North Carolina State University & Novomer.

Join us in May! [Click here](#) for more information.

Radiation Curing Program Announces New Summer Short-Course

Register now for this new self-paced, online short-course for Summer 2014: **Principles of Energy Curing Technologies**. This new course provides participants with the opportunity to explore the innovative and rapidly growing field of Energy Curing in a cost-effective and

convenient way. **Session I begins May 19th!** [Click here](#) to learn more and to register for this and other RCP courses.

12th Annual New York State Green Building Conference

March, 2014

Congratulations and thanks go to all 2014 New York State Green Building Conference partners, sponsors and participants for another outstanding gathering of our region's premier event for green building practitioners, educators and leaders! See highlights at:

- [Center of Excellence director named green building advocate of the year](#)
- [6 new eco-friendly products that will give your house a touch of green](#) (photo gallery)
- [Some of New York's newest and most significant green buildings, innovations](#) (photo gallery)

A great moment at the Conference: **Dr. Eric Sanderson & Dr. Anthony Ingraffea** speaking together. This organic conversation began after Dr. Ingraffea's stirring presentation about [The Solutions Project](#), whose mission is to use the powerful combination of science, business, and culture to accelerate the transition to 100% clean, renewable energy.

Green Production Certificate Program to Begin May 19th

The [Green Production Module of the Certified Production Technician](#) credential covers "workplace activities across all industries within the manufacturing sector that require the use of equipment, technologies, and processes that will improve the environmental performance of manufacturing companies." For information and to enroll in this **free, on-line training**, [click here](#).

ESF / Syracuse City School District *Environmental Challenge* - NEW DATE!

Can you give up a few hours of your time to help judge middle school science fair projects? If so, we need your help! Please join us at SUNY-ESF and the Carrier Dome as a judge for the 2014 [Environmental Challenge](#)! Get involved to celebrate and encourage over 500 Syracuse City School District middle school students' STEM pursuits. 8:30 AM (continental breakfast and judge training) – 1:00 PM **Monday, May 19, 2014**. [Learn more and registrar](#) (**parking provided**).

American Chemical Society, ESF, & RadTech Co-Host Program on UV Curing Technology

The CNY Section of the **American Chemical Society**, in collaboration with SUNY-ESF and Radtech International, N.A., present a special *Future of UV/EB Advanced Manufacturing: Trends, Strategies, and Applications* live presentation and webinar on **April 9th** featuring **Dr. Stephen Cantor**, Dymax, entitled, "UV Curing Technology: A Route to Solvent-Free Adhesives & Coatings". [Click here](#) to learn more and to register for the live presentation at SUNY-ESF or the webinar.

TACNY Celebration of Technology Awards Banquet

Congratulations to ESF's Brandon Murphy and all of the 2014 TACNY Celebration of Technology award recipients!

Brandon Murphy (right), recipient of the Science and Technology Outreach (Individual) Award, with Howie Hollander, President of TACNY.
