Radiation Curing Program
The Radiation Curing Program (RCP) is a three-course suite of graduate-level online courses that responds to current and emerging demand for UV/EB training and education. This national initiative, led by SUNY-ESF, in partnership with RadTech International, North America and other regional and national partners, helps you position your organization to meet current and future challenges and opportunities, and better prepares you to lead this vital sector of the U.S. economy.

Courses
- **Introduction to Polymer Coatings** / May 13 - July 26, 2013 / Online
- **Radiation Curing of Polymer Technologies** / May 13 - July 26, 2013 / Online
- **Radiation Curing Equipment, Instrumentation and Safety** / June 3 - July 31, 2013 / Online

Flora, Wetlands, and Birds, Oh My!
May 13 - August 9, 2013
SUNY-ESF Summer Session offers a wide variety of exciting courses that cannot be found anywhere else, all at SUNY's favorable tuition rates (in-state undergraduate: $232/credit; in-state graduate: $390/credit*). Registration is currently open for Maymester, Summer Sessions I & II and Combined Summer Session.

*Tuition costs referenced here are based on currently published rates and are subject to change: www.esf.edu/bursar/costs.htm

Advanced Manufacturing of Thermal and Environmental Control Systems (AM-TECS)
ESF is proud to announce participation in a new initiative focused on the Advanced Manufacturing of Thermal and Environmental Control Systems (AM-TECS). AM-TECS is conducted by a team of seven institutions and organizations, led by Syracuse University. The team includes CenterState Corporation for Economic Opportunity (CenterStateCEO), the Manufacturers Association of Central New York (MACNY), NYSTAR, CNY Technology Development Organization, the SUNY College of Environmental Science and Forestry (ESF), and Onondaga Community College. This initiative is funded through the Advanced Manufacturing Jobs and Innovation Accelerator Challenge administered by the U.S. Department of Commerce's Economic Development Administration (EDA), National Institute of Standards and Technology (NIST), U.S. Department of Energy (DOE), U.S. Department of Labor's Employment and Training Administration (ETA), and the Small Business Administration (SBA).

Ed Bogucz, executive director of the Syracuse Center of Excellence in Environmental and Energy Systems said: “We are thrilled to launch a new initiative that focuses on creating jobs and innovations in one of the signature industry clusters in Central New York - manufacturing of products that heat and cool buildings and many other applications...”
