United Nations Champion of the Earth Supports Green Building Conference
March 12th - 13th, Liverpool, NY

Rick Fedrizzi and his colleagues at the U.S. Green Building Council were awarded the United Nations Champions of the Earth award in November for their Leadership in Energy and Environmental Design (LEED) certification program. ESF is pleased to announce that the U.S. Green Building Council has joined the Syracuse Center of Excellence as a supporting partner for the 2015 Green Building Conference. Fedrizzi, CEO of the U.S. Green Building Council, will host a plenary session during this year's conference. Learn more about the 2015 NYS Green Building Conference and register today!

2015 ESF Summer Semester Course Schedule Now Available

Make plans now to get ahead or catch up with one or more of over 30 ESF Summer Semester courses including on-campus, online, and field-based options. This year's field experiences could take you to Washington D.C., Acadia National Park, or New York City. Take a class wherever you go with one of our 18 online courses. View the complete course schedule online. Registration opens February 2, 2015.

ESF in the High School Teachers Publish in Distinguished Journal

Several educators at ESF in the High School partner East Syracuse-Minoa Central Schools have written articles appearing in the December 2014 New York State Association for Supervision and Curriculum Development Journal. These articles reflect a deep commitment to STEM teacher professional development, collaboration, and student-centered STEM and related college and career readiness. Here is a link to one of the articles by ESF in the High School teachers (and ESF alumni) Pam and John Herrington: STEM: Partnerships with Village and Higher Education Promotes Research Opportunities.
ESF Outreach Student Assistant Wins Commercialization Showcase

Jake Clintsman, senior in Paper and Bioprocess Engineering, and his "Kognitive Systems" team recently took first place in a Commercialization Showcase at the SUNY Polytechnic Institute. Their challenge was to create a business strategy to take a technology for detecting interruptions in the paper manufacturing process into the private sector. Read more about their project from the Daily Orange.

Landscape Architecture Students Redesign Syracuse Tech Garden Plaza

Nine students in Prof. Susan Dieterlen's graduate-level design studio exhibited their ideas for redesigning the plaza between the Tech Garden and AXA Towers in the October Art and Design Showcase. Students focused on making the plaza a visible expression of the Tech Garden's innovative spirit. View more Showcase pictures on the Tech Garden's Facebook page.
