Make Plans for an Exciting Spring & Summer with ESF Outreach

Dear Friends:

We’re well into the new semester and new year -- and closer every day to our annual accumulation of 9 – 10 feet of snow!

Believe it or not, even with so much activity in the coming days and weeks, it’s also time to look ahead and prepare to make the most of our summer months, especially for our ESF students and students from other campuses. Preparations are well underway for ESF’s Summer Semester. In fact, registration opened last week for online, on-campus, and a variety of field-experience courses held in locations near and far!

The winter ESF in the High School teacher professional development will focus on Ecological Engineering. This outstanding community of teachers will work with several ESF faculty and alumni, including Drs. Stewart Diemont (Department of Environmental and Forest Biology), Klaus Doelle (Department of Paper and Bioprocess Engineering), Rick Beal (ESF Outreach), and Noah Pasqua-Godkin (Masters in water and wetland resources). Their aim is to bring principles of sustainable ecosystem design and restoration into their ESF in the High School and other STEM courses in order to provide their students with the very best school-to-college and career readiness. Learn more about ESF’s engineering and other STEM programs.

Join practitioners, educators, students and scholars from throughout NYS and the U.S. for the NYS Green Building Conference, including a plenary presentation hosted by Rick Fedrizzi and the USGBC.

Join our faculty, students and guests for an engaging dialogue on Depolarizing The Environment: Thinking Broadly About Science, Policy and Politics, including plenary speakers, Dr. Sarah Pralle, Associate Professor of Political Science at the Syracuse University Maxwell School of Citizenship and Public Affairs, and Dr. Steven Hayward, Ronald Reagan Distinguished Visiting Professor at Pepperdine University’s Graduate School of Public Policy.

And more! We welcome your thoughts and questions, and we look forward to working with you.

Sincerely,

Dr. Chuck Spuches, Associate Provost for Outreach
Register Now!

**Depolarizing The Environment: Thinking Broadly About Science, Policy and Politics**  
February 13th, ESF Campus. [Register online](#)

**Radiation Curing Program: Principles of Energy Curing Technology**  
Start March 2nd, April 1st, or May 1st, online. [Register online](#)

**Radiation Curing Program: Basics of UV Curable 3D Printing**  
Start March 2nd, April 1st, or May 1st, online. [Register online](#)

**Radiation Curing Program: Graduate Level Courses**  
February 16th - May 1st, online. [Register online](#)

**ESF in the High School Feb Web Teacher Professional Development Webinar**  
2:00 PM February 19th, Online. Email mhstefl@esf.edu to register.

**Future of UV/EB Webinar: What the June GHS Compliance Deadline Means for UV/EB Labels**  
2:00 PM February 25th, Online. [Register online](#)

**AM-TEC Certified Production Technician: Green Production**  
March 2nd-13th, Online. [Register online](#)

**Green Building Pre-Conference Workshop: Zero Energy Ready Home Training**  
March 11th, ESF Campus. [Register online](#)

**New York State Green Building Conference**  
March 12th - 13th, Liverpool, NY. [Register online](#)

**ESF Summer Semester**  
May 11th - August 7th. More information online

**Save the Date**

**Certified Production Technician: Safety**  
March 16th - April 1st, Online. [Register online](#)

**SPARE: Solar Power As Renewable Energy Basic Course**  
March 16th - 19th, Syracuse. [Register online](#)

**Future of UV/EB Webinar: Sustaining Energy Savings in a Manufacturing Facility**  
2:00 PM March 18th, Online. [Register online](#)

**Dale L. Travis Lecture: FDR, ESF, NPS at the Roosevelt Estate**  
7:30 p.m. March 25th, Gateway Center.

**27th Annual Northeastern Recreation Research Symposium**  
April 12th - 16th, Annapolis, MD. [Register online](#)

**SPARE: Solar Power As Renewable Energy Commercial Course**  
April 16th, Syracuse. [Register online](#)

**Advanced Manufacturing –Thermal and Environmental Controls Foundational Competencies**  
April 16th & 23rd, 2015, MACNY. [Register online](#)
New York State Biotechnology Symposium
May 12th - 13th, 2015, Brookhaven National Laboratory. Register online
