Don’t Forget! Spring semester Radiation Curing Program courses start February 3rd - Register Now!

- CNY Firms - Have you applied for the Clean Tech Scholarship? Click here for more information.
- CNY Business Journal article features Radiation Curing Program. Click here to view the interview with Daniel Montoney, Chief Technology Officer at Rapid Cure Technologies.
- Energy Curing Technology Reaches the Mass Market. Click here to view Motorola's World Series ad extolling the "premium UV finish" used on their new Droid. (You may wish to skip ahead to the 47-second mark to see the reference to UV technologies).

ESF Summer Session 2014

Dave Eichorn invites you to make the most of your summer with SUNY-ESF! Click here to watch the video.

Save The Date - Join us during the first week of February (2/3 - 2/7/14) for the first-ever Summer Session Week at the Trailhead Cafe! Special menu items will be added to celebrate the tastes of the summer!

The awesome crew at the Trailhead Cafe
SUNY Conversation in the Disciplines Coming to ESF

On January 24, 2014 ESF and Upstate Medical University will co-host the 2014 SUNY Conversation in the Disciplines - From Lab to Landscape: Integrated Infectious Disease Research. Registration is now open! Click here to learn more.

SUNY Research Foundation "Learning Tuesday"

Don Artz (SUNY-ESF Office of Research Programs) organized and hosted a SUNY Research Foundation “Learning Tuesday” webinar focused on Effective Collaboration between Principal Investigators/Project Director and Sponsored Programs Staff that included presentations by (among others) ESF’s Lisa Schwabenbauer (Sponsored Programs Assistant I) and Dr. Chuck Spuches (Associate Provost for Outreach). Learning Tuesdays, offered live on a bi-monthly basis, connects people from across SUNY’s research enterprise and beyond to discuss the policies, procedures, compliance and all topics related to RF business. Learn more about this and related programs at SUNY RF Learning Tuesdays.

President Wheeler Featured in Wall Street Journal Online

New ESF President, Dr. Quentin Wheeler, author of "What on Earth? 100 of Our Planet's Most Amazing New Species," was recently featured in a story about new species discovered in 2013. Click here to watch the Wall Street Journal Online interview.

SUNY-ESF and MACNY Offer Foundation Competency Training

SUNY-ESF and MACNY are now offering training to the general public, supported by funding from the Department of Labor as part of the Advanced Manufacturing of Thermal and Environmental Controls (AM-TEC) Jobs and Innovation Accelerator Challenge grant. SUNY-ESF will award 1.5 Continuing Education Units (CEU) to participants at course completion.

Here is what Fulton Companies said about our Foundational Competency training:

"Immensely beneficial. Having our people more educated in and exposed to the differences in behavioral styles, data collection, and lean manufacturing as they serve in leadership roles is critical to operating a manufacturing setting and pushing ourselves to the next level of excellence."

Click here for more information.
