Competitive Grant Awarded to Increase Diverse Student Participation in STEM

I am proud to announce that ESF will be part of a new SUNY-led initiative to train graduate students who will mentor middle school students in STEM.

As announced by the Army Educational Outreach Program (AEOP):

"AEOP, in collaboration with Battelle, has awarded grants to eight organizations and technical associations to expand student participation in enriching science, technology, engineering and math (STEM) exploration and learning, particularly for underserved students. AEOP offers students and teachers Army-sponsored programs that effectively engage, inspire and attract the next generation of STEM talent." Read more.

Think Summer - Think ESF SCIENCE!

ESF SCIENCE (Summer Camps Investigating Ecology in Neighborhood and City Environments) was established as an offshoot of our first NSF GK12 grant in 2003. Read more.
High School Students Engage in the Process of Science

Congratulations to all of the ESF in the High School students and teachers who participated in the annual Environmental Summit on June 2nd. Read more.

NYS DEC Convenes at ESF!
