Are you ready to learn about the growing green building market?

Attend the LEED 101: Getting Started with Green half-day (4-hour) workshop presented by the U.S. Green Building Council. Gain a greater understanding of sustainability, green design and USGBC’s role in the movement from an experienced professional.

WHY LEARN ABOUT LEED?
Ask any of the 3000+ building owners seeking LEED (Leadership in Energy and Environmental Design) certification right now. Owners and developers are demanding green buildings that save money while protecting the environment and occupant health. The USGBC’s LEED Rating System™ is the nationally recognized rating system for green buildings. LEED is already being used by green building projects in all 50 states, and the market continues to grow.

WHAT’S COVERED?
• Introduction to USGBC and the family of Rating Systems: 
  LEED-NC: New Construction & Major Renovations
  LEED-EB: Existing Buildings operations and maintenance upgrades and minor renovations
  LEED-CI: Commercial Interiors and tenant improvement projects
  LEED-CS: Core & Shell
  LEED-H: Homes
  LEED-ND: Neighborhood Developments
• General sustainability issues
• How to choose the right LEED rating system
• Return on investment (ROI) of green building
• Project case studies and lessons learned
• Green building tools and resources

WHO SHOULD ATTEND?
Any and all industry professionals seeking to use LEED to build green or to provide services to the building industry:
Design Professionals  Real Estate Professionals
Building Owners  Product Manufacturers
Service Providers  Contractors
Tenants  Government Officials
Educators
