Questionnaire

Funding acknowledgement
Please confirm that you have acknowledged all organizations that funded your research, and provided grant numbers where appropriate.

Answer
Required:

☐ All funding sources have been acknowledged.

Please select a response.

To complete your submission you must select a statement which best reflects the availability of your research data/code. IMPORTANT: this statement will be published alongside your article. If you have selected "Other", the explanation text will be published verbatim in your article (online and in the PDF).
(If you have not shared data/code and wish to do so, you can still return to Attach Files. Sharing or referencing research data and code helps other researchers to evaluate your findings, and increases trust in your article. Find a list of supported data repositories in [Author Resources](#), including the free-to-use multidisciplinary open Mendeley Data Repository.)

Answer
Required:

Please select a response

Please select a response.

No data was used for the research described in the article.

The data that has been used is confidential.

The authors do not have permission to share data.

Data will be made available on request.

The authors are unable or have chosen not to specify which data has been used.

Other (please explain: e.g. 'I have shared the link to my data/code at the Attach File step').

Do you have any related research objects (data, methods, protocols, software, hardware) that you would like to publish alongside your original research as an additional paper in [Research Elements](#)?

Research Elements is a suite of Open Access journals, with associated APCs (article processing charges), which make research objects findable, accessible, and reusable. Manuscripts can be prepared by any member of the team who worked on the original research and submitted at any time.

Instructions

Answer
Required:

- ☒ Please select a response
- ☐ Yes
- ☐ No
- ☐ Not sure, I'd like to learn more

Please select a response.

Authors

Review **all** author details:

- Make sure Institutional affiliations match where the research took place.
- Institutional and society discounts can reduce article publishing charges for Gold open access.
- Providing complete author details will best determine if your manuscript qualifies for these discounts.
