### Dashboard

**New manuscripts:** (see below for revision instructions)

- For a comprehensive guide on submitting a new manuscript, please visit the [QuickStart Guide to Authors](#).
- To submit a new manuscript, click on the starred icon below.
- Clicking on the various manuscript status links under "My Manuscripts" will display a list of all the manuscripts in that status at the bottom of the screen.
- To continue a new manuscript submission already in progress, click the "Continue Submission" link in the "Unsubmitted Manuscripts" list.
- Authors, be aware that your papers may be screened for plagiarism. Our software product evaluates papers to find significant duplication. If there appears to be major repetition from other sources, we will forward those papers to the Journal Editor for further evaluation and action if warranted, and you may be informed as well.**

#### Regarding revisions:

- Manuscript Central treats each version of your manuscript as an independent paper. The first revision will have an .R1 appended on the manuscript number, the second revision will receive an .R2, and so on. Each version will receive a "decision" (e.g., **tentatively acceptable with revision, accept, minor revision**).
- If an Associate or Technical Editor requests a revision, the manuscript will appear on your author dashboard under **Manuscripts with Decisions**. The first time you open it, a revision is created and the manuscript will move to the **Revised Manuscripts in Draft** queue. If there are manuscripts in your **Revised Manuscripts in Draft** queue, then the submission of your revision is not complete (you did not click the blue **Submit** icon at the bottom of page 7). You may open and close this version as needed until you make the submission.
- If you are unable to create a revision because the deadline has passed, please contact the Associate or Technical Editor assigned to have the deadline extended.

and soil exchangeable Ca ( $p=0.0001$ ). N mineralization rate was higher when foliar N concentration was higher, but was reduced when the soil C/N and soil exchangeable Ca were higher. Work presented here indicated foliar N could be influenced by the original status of parent material, while N mineralization in the forest floor was associated with foliar N concentration, soil C/N, and soil exchangeable Ca. The effects of quantitative differences in soil nutrient concentration related to different parent material on N cycling deserve further study.

Enter your co-authors' information in the boxes below, then click "Add to My Authors." To check if an author already exists in the journal's database, enter the author's e-mail address and click "Find." If the author is found, the rest of the information will be automatically filled out for you. If the address cannot be found, try an alternate email address (you may need to consult the author if you think s/he has an account in MC) before creating a new account. If you create a second account for your co-author, s/he will have a problem locating the manuscript until both accounts are merged by the administrator. When you are finished, click "Save and Continue."

The submitting author should have sent each living co-author a draft copy of the manuscript and have obtained the co-author's assent to co-authorship of it.

**Permission to Publish and Republish**

The terms below refer to hard copy and electronic publications and republications and compilations.

The U.S. Copyright Law of 1976 (P.L. 94-553) makes it necessary to obtain permission from authors to publish and republish their articles and related information (such as images) in the Societies' publications. Permission to publish and republish does not constitute transfer of copyright. In accepting this agreement the undersigned warrants that: (1) the Work is original and that he/she is the author(s) of the Work; (2) the author has obtained permission from any and all persons who have contributed to the Work, including but not limited to, those who have produced any part of the Work, to its publication, and to sign this document; (3) that consent has been obtained from any persons shown in any photos or graphic depictions accompanying the Work; (4) the Societies and/or publisher shall not be held liable for editorial and printing errors and errors in technical or other content of the Work; (5) the Work and all information included therein and/or therewith and its publication or republication by the Societies or any agent does not infringe upon or violate any right, title or interest of any third party nor will its publication violate any obligation of any author not to disclose; (6) the author(s) jointly and severally are hereby bound to and shall indemnify and hold harmless the Societies and publisher and their agents from and against any and all claims, causes of action, damages, loss, liability, proceedings, judgments, orders, awards and costs and expenses (including attorneys' fees), arising from or related to the Work and/or portions thereof and/or the publication or republication thereof, and/or for any breach of the foregoing warranties; (7) this includes any cover submissions (images), which may be repurposed by the Societies'; and (8) the authors have no conflict of interest regarding publication of the work.

**By agreeing to these terms, the author(s) further stipulate that this Work has not been published elsewhere and that it is not currently under review by any other publication. The author(s) further agree that until such time that ASA, CSSA, and/or SSSA or its or their agent publish(es) this Work, or officially decide(s) not to publish it, and issue(s) a written letter of acceptance or release (rejection), this Work will not be published or offered to any other publisher.**

**I have read and fully understand the above and agree to be bound hereby:**

☒ **Permission to publish and republish in hard copy and electronic forms is hereby granted by the undersigned senior author and all coauthors to the American Society of Agronomy, Inc., Crop Science Society of America, Inc., and/or Soil Science Society of America, Inc.**

**Check only if they apply:**

## Author Center Submit a Manuscript

Upload as many files as needed for your manuscript in groups of three or fewer. These files will be combined into a single PDF document for the peer review process. We will need your original files, so do not upload a PDF file. If you are submitting a revision, please include only the latest set of files. **If you have updated a file, please delete the original version and upload the revised file.** To designate the order in which your files appear, use the dropdowns in the "order" column below. **Please upload figures as independent files (one figure per file) in TIF or EPS format.** Figure files work best with no underscores, hyphens, or spaces. If you have greek characters in your files, please see "Read More..." below. View your uploaded files by clicking on HTML or PDF. When you are finished, click "Save and Continue."

[Contact the SSSAJ Editor](#)  
[Contact the SSSAJ MC Administrator](#)

**Please check the following before uploading your files to prevent a delay:**

- 1. 12-pt font.
- 2. Double-spaced text with line numbering.
- 3. Tables should be single spaced to preserve formatting. Columns and rows are defined by individual data cells, don't separate cells with spaces and tabs. Tables will be published in 100% boldface, so don't highlight values in bold (use italics, underscores, and footnotes instead). Tables should be located at the very end of the main text document.
- 4. Abstract included and matches what you've entered in the text box on p. 1.
- 5. Figures are in separate, individual files (one figure per file) and are of high resolution (original format is best), ready for press. Figure Captions should be located in the main text document, listed before the tables. Do not insert figures in main text document.
- 6. Check your PDF proof carefully before submitting (p. 7). Check for repeated items (indicates a duplicate uploading of files -- go back to p. 6 and remove the extra file if this happens).
