

Requirements for Manuscript Submission

The manuscript was formatted in accordance with the instructions of “*Forests*” journal. The selected journal requires three to ten keywords. The abstract should be about 200 words as maximum. The References section is to follow the ACS style. Three potential reviewers can be suggested. Excluded reviewers can also be provided during submission. The proposed referees must not be current collaborators of the co-authors. Those who published with any of the co-authors during the previous five years should not be suggested for reviews. It is good to recommend any Editorial Board members of the journal or the frequently cited authors as potential reviewers.

The journal requires links to supplementary materials (e.g., www.mdpi.com/1999-4907/7/10/217/s1). The name and title of each element should be indicated as follows Figure S1: title, Table S1: title, etc. File for Figures and schemes must be provided with a single zip file. With respect to the length of manuscript, the journal has no restrictions. Once accepted, the article processing fee of 1400 CHF (Swiss Francs) per paper will be asked for publication. US Dollars are also accepted. There is no submission charge. A cover letter is required which should mention the significance and findings of the submitted work and explain why this manuscript is a good fit for the journal. Previous manuscript submissions to MDPI journals must be acknowledged.

SI Units (International System of Units) should be used. Larger data sets and files greater than 60 MB must be deposited by consulting databib.org or re3data.org. The data repository name, link to the data set (URL) and accession number, doi or handle number of the data must be provided in the paper. At least one author should be nominated as corresponding author and mentioned his or her at the end of the affiliation section.
