

# **NORTHEASTERN NATURALIST: REVIEWER'S FORM 1**

**Manuscript #235**

---

**The following are some considerations as you review the manuscript:**

Is the contribution scientifically accurate?

Is the contribution adequately documented?

Is the summary reasonably comprehensive and well balanced in its presentation?

In general, is the contribution clearly, interestingly, and concisely written? Can you identify superfluous parts the author(s) can omit?

Is the relevant literature adequately covered? Are all cited references pertinent or helpful?

Is the manuscript sufficiently illustrated? Are the illustrations and/or photographs of high quality? Are some superfluous? Are others needed?

Does the article have an abstract?

Please ask the author to make sure that all tables are formatted with tabs only, i.e., not with variable numbers of spaces.

Please make sure that the literature Cited Section is formatted as hanging paragraphs and not with tabs or a number of spaces at the beginnings of lines.

Feel free to make comments on the manuscript itself. You may wish to enter reference numbers on the manuscript that are keyed to numbered comments on separate sheets.
