

Name: Lexi Chipules

Department: FNRM

Major: SEM and CM

Email: lchipule@syr.edu

Class Standing: Junior

Desired Position: Department Senator

I have been involved in clubs and activities and been in leadership positions in them from throughout high school to now. I am currently the president of the Food Recovery Network at ESF and SU as well as the secretary of the SU Western Equestrian team. I have previously held leadership positions in Habitat for Humanity at SU as well as being a member of AXS Honors Society.

I believe that USA plays a fundamental role in developing the students experience on campus, from providing a structure to challenge and improve the academic system to providing engaging events that bring students together. I think without USA the campus would be disconnected and there would be no resolutions to student concerns. USA sponsored events bring a fun, relaxing break to the school day and allow students to mix and converse in ways that can't be done in a classroom.

I hope to bring fresh ideas and topics to USA and make meaningful changes through feedback from students and professors alike. I hope to support student ideas to ensure the best possible experience to us all.
