To whom it may concern,

In high school, I was very involved in the school community. I was a player for the volleyball team for three years and a manager for one year. At the same time, I also joined many clubs that built my leadership skills in different aspects. This semester in college, I joined the U.S.A. as my first step in getting more involved in the new community and improving my leadership skills. While attending the U.S.A meetings, I learned how an excellent leader should act and make positive changes to the people around him or her. In the meetings, I have witnessed many changes that the U.S.A. has made or is trying to make to provide a better and safer community to students. Due to this positivity, I want to continue serving in the U.S.A. and helping the U.S.A. to make more changes in our community.

If I will have the honor to continue being a member in the U.S.A next semester, I want to still join the Committee of Diversity, Equality, and Inclusion and the Committee of Student Affairs. Just like the reasons why I am in these two committees right now, I want to join the Committee of Diversity, Equality, and Inclusion because I want to get to know people from different cultures and I want the minority groups to have a say in our community. I want to join the Committee of Student Affairs because I am a student and I want to learn more about my peers through the Committee of Student Affairs. Similar to when I joined the U.S.A. this semester, my goals for my tenure in U.S.A are to create activities that can bring the people in the school’s community together, especially those first-semester freshmen and to let more people know about U.S.A and that projects that we are working to make our school a more lovely place.

Sincerely,

Meng Bing Lin
