

USA Member Application

Zaynab Taveras (zatavera@syr.edu)

Senior, Biochemistry Major in the Chemistry Department

Applying to be Insomniacs Co-coordinator

Letter of Intent

In my three years at SUNY College of Environmental Science and Forestry, I have been involved with several on-campus organizations and attended many more campus events. I have been a Centennial Hall EcoRep, worked with ITS Media and been a Student Assistant for the Chemistry Department. I have always dedicated myself to doing the best I could in whatever role I had. In other words, if I commit myself to something, I give it my best effort.

I have attended many Insomniac Events in the past and am now applying to be an Insomniacs Co-coordinator. I hope to make Insomniac events as fun and alluring as possible to increase attendance and heighten the student experience at ESF. I appreciate all the services USA provides to SUNY ESF and hope I can do my part to help out.
