Guide Purpose

This Green Purchasing Guide is meant to serve as a pilot product and educational tool to increase awareness of and associated compliance with NYS green purchasing mandates and ESF green purchasing goals. If purchasers have questions about the purchasing hierarchy, EO 4 or other legal aspects of NYS procurement law, they should contact the Business Office and/or College Counsel.

There are over 75 approved NYS green purchasing specifications, which can be found on the following page. State agencies and authorities are required to purchase commodities, services and technologies that meet these specifications.

This Guide does not include every product that meets NYS and ESF green purchasing standards, nor does it include a product for every specification category. This Guide contains products that meet NYS green purchasing mandates for the items most commonly used on ESF campuses. It also includes green versions of commonly purchased products that do not currently have a NYS green purchasing specification, but have a relevant 3rd party certification or have been designated as ESF environmentally preferred.

This Guide will be reviewed quarterly, to ensure that links are live and products remain in stock. Products will be added to this Guide as College purchasing habits change over time and product availability evolves.

In future versions of the guide, Service-Disabled Veteran-Owned Businesses (SDVOBs) will be included and marked as was done in this version with Minority- and Women-Owned Businesses (MWBEs).

If you have suggestions for improvement please email Sue Fassler (scfassle@esf.edu). Suggested products will be researched and added to the Guide during the routine quarterly update period. All purchasers that identify products not included in this Guide but meet EO4 specs, have 3rd party certifications or meet ESF environmentally preferred criteria are welcomed and encouraged to send them to Sue! They will be added to the Guide for our collective benefit.
NYS Green Purchasing Specifications

Executive Order 4 (EO4) established a green purchasing program in NY state (NYS). State agencies and authorities are required to purchase commodities, services and technologies that have an associated green purchasing specification. These specifications can be seen below or by following the link above. If you are purchasing a good or service that falls within the categories below, you must ensure that those items meet the specification criteria, even if product suggestions for these categories are not included in this Guide.

- Air purifiers
- Commercial coffee brewers
- Commercial clothes washers
- Commercial dishwashers
- Commercial fryers
- Commercial griddles
- Commercial hot food holding cabinets
- Commercial ice machines
- Commercial ovens
- Commercial refrigerators and freezers
- Commercial steam cookers
- Computers and displays
- Dehumidifiers
- Domestic clothes washers
- Electric hand dryers
- Imaging equipment (printers)
- Residential clothes dryers
- Residential dishwashers
- Residential freezers
- Residential refrigerators
- Room air conditioners
- Food service containers and wrappers
- Single use food service utensils
- State funded food
- Acoustical ceiling tiles and panels
- Adhesives
- Apparel and textile materials
- Batteries
- Coating removal products
- Floor coverings
- Composting toilets
- Cookware and bakeware
- Disinfectants and sanitizers
- Drinking fountains
- Floor finishes and floor removers
- Furniture
- General purpose cleaners
- Garment cleaning
- Hand cleaners and personal cleansing products
- Ink
- Janitorial paper products
- Laundry detergent
- Lighting fixtures, ballasts and lamps
- Lubricants
- Monochrome toner cartridges
- Motion sensitive wall light switches
- Mulch
- Outdoor furniture and playground structures
- Packaging
- Paint
- Pest management for indoor spaces
- Pest management for outdoor spaces
- Photovoltaic systems
- Printing
Executive Order 4 (EO4) established a green purchasing program in NY state (NYS). State agencies and authorities are required to purchase commodities, services and technologies that have an associated green purchasing specification. These specifications can be seen below or by following the link above. If you are purchasing a good or service that falls within the categories below, you must ensure that those items meet the specification criteria, even if product suggestions for these categories are not included in this Guide.

- Pre-packaged snowmelt and deicing products
- Refrigerant containing equipment
- Reusable bags
- Showerheads
- Solar thermal systems
- State funded lodging
- Toilets
- Trash bags
- Vacuum cleaners
- Brake pads
- Engine block heaters
- Hydraulic oil, high detergent
- Lubricating oil, high detergent
- Passenger Vehicles
- Pavement marking paint
- Pavement sealer
- Sustainable Landscaping
- Traffic message boards
- Traffic safety products
- Treated road salt
- Vehicle wheel weight and continuous wheel balancers

- Additional Green Purchasing Resources
  - Alternative Giveaways, part of ESF's Sustainable Event Program

**New Specifications as of November 2022**

- Lower Carbon Concrete
- Heat Pumps (Heating and Cooling Equipment)
- Menstrual Products
- Reusable Bags
- Packaging (Updated specification)
- Solid Waste Recycling and Management Services

**Updated Specifications**

- Passenger Vehicles
- Batteries
- Disinfectants and Sanitizers
- Electric Hand Dryers
- Trash Bags

**Tentatively Approved Specifications**

- Brooms
- Disinfectant Delivery Devices
- Mops
- Onsite Chemical Generation Units
- Powered Floor Maintenance Equipment
- Sorbents
- Sponges and Scrubbers
- Waste baskets and Recycling Containers
- Wiping Rags and Cloths
Per Executive Order 4 (EO4), NYS agencies and authorities are required to purchase commodities, services, and technologies that are included within and meet approved green procurement specifications. This requirement only applies to products and services that currently have associated EO4 specifications.

NYS agencies and authorities are also required to abide by NYS Procurement Guidelines and by NYS Finance Law. ESF employees must also abide by ESF's Green Purchasing & Break Free From Plastic Policy. This Guide aims to simplify compliance with these requirements!

Per NYS Procurement Guidelines, State agencies must look for products that meet agency specified "form, function, and utility" standards from Preferred Sources, starting with 1, before purchasing products from other vendors in the purchasing hierarchy:

1 - New York State Industries for the Disabled (NYSID), Corcraft and New York State Preferred Source Program (NYSPSP)
2 - OGS Centralized Contracts
3 - Agency or multi-agency established contracts (in ESF’s case, SUNY contracts)
4 - Discretionary spending (open market)
   - See the Vendor Key on the next page

Purchases from Minority & Women-owned Businesses (MWBEs) and Service-Disabled Veteran-Owned Businesses (SDVOBs) should be prioritized, within every level of the purchasing hierarchy, where available.

Many products listed in this guide meet or exceed EO4 specifications. It should not be assumed that all products sold by a vendor referenced in this guide meet or exceed EO4 specifications.

3rd party certified or ESF-designated environmentally preferred products are listed for commonly-used products that do not have an associated EO4 specification

- 3rd Party Certifications: GreenSeal, UL EcoLogo, Energy Star, Biodegradable Products Institute (BPI) Certified Compostable, EPA Safer Choice, USDA Certified BioBased, Forest Stewardship Council, Cradle to Cradle, and others
- ESF Environmentally-Preferred Products:
  - Product is made from recycled content;
  - Minimal, recyclable, and/or compostable packaging;
  - Product is easily reusable/ durable;
  - Uses replaceable/ refillable parts.
Guide Overview

The products in this guide are grouped in the following categories:

- **Office supplies**
- **Janitorial supplies**
- **Trades and Facilities**
- **Food Service and Cafeteria**
- **Electronics**
- **Apparel**

These product categories are based on the most commonly purchased items at SUNY ESF during a typical fiscal year.

Within each category, you will find:

1. A **Table of Contents** outlining the products listed in that category, in the order they appear. These are linked to their location in the guide.
2. **Links to products** that meet EO4 specs, have relevant 3rd party certifications or are deemed ESF environmentally preferred products

**Abbreviations**

- **PCR**: Post-Consumer Recycled
  - Note: PCR content is environmentally preferable, over post-industrial content, because the material was already used in a consumer product
- **TRC**: Total Recycled Content - Includes post-consumer and post-industrial content

**Searching the Guide**

1. Jump to the Product Category in the **Table of Contents** then click the Product Type in the Category Directory to see all available products
2. When looking for a specific item use the function "ctrl + f" to jump to that item
Symbols

Vendor Key - By Purchasing Priority
Products listed in this Guide are ranked based upon NYS Procurement Guidelines and New York State Finance Law. While using the guide, use the following color code to identify each vendor's purchasing priority level. Refer to the symbol shape for green purchasing standard compliance.

1. Preferred Sources: NYSID, Corcraft, and NYSPSP
2. OGS Centralized Contracts
3. SUNY Contracts
4. Discretionary (open market)

Product Key
All items in this guide meet or exceed EO4 specifications and/or are compliant with 3rd party certifications and/or are designated as ESF environmentally preferred products

- ★ Meets or exceeds EO4 specifications
- ● 3rd-Party Certified
- ▲ Meets ESF Green Purchasing Policy
  - Product is made from recycled content;
  - Minimal, recyclable, and/or compostable packaging;
  - Product is easily reusable/ durable;
  - Uses replaceable/ refillable parts.

Please see the Legend on the next page for a detailed description of each symbol found within the guide.

MWBE: Minority- and Women-owned Business Enterprises will be bound by a gray box

Example: ★ = Product that meets or exceeds EO4 specifications from an OGS-contracted MWBE
Symbol Legend

In the following pages, you will see symbols next to each vendor’s name. Within each category, each vendor is organized by purchasing priority. The symbol shape refers to the environmental attributes of linked **products** listed in this Guide. **It should not be assumed that all products offered by listed vendors meet green purchasing standards.**

**1 Golden Star**: Products that meet or exceed EO4 Specifications, from a Preferred Purchasing Source

**Golden Circle**: Products are 3rd-party Certified Sustainable, from a Preferred Purchasing Source

**Golden Triangle**: Products that meet ESF’s Environmentally-Preferred specifications, from a Preferred Purchasing Source

**2 Blue Star**: Products that meet or exceed EO4 specifications, from an OGS-contracted vendor

**Blue Circle**: Products are 3rd-party Certified Sustainable, from an OGS-contracted vendor

**Blue Triangle**: Products that meet ESF’s Environmentally-Preferred specifications, from an OGS-contracted vendor

**3 Green Star**: Products that meet or exceed EO4 specifications, from a SUNY-contacted vendor

**Green Circle**: Products are 3rd-party Certified Sustainable, from a SUNY-contacted vendor

**Green Triangle**: Products that meet ESF’s Environmentally-Preferred specifications, from a SUNY-contacted vendor

**Purple Star**: Products that meet or exceed EO4 specifications, from a Discretionary Purchasing source

**Purple Circle**: Products are 3rd-party Certified Sustainable, from a Discretionary Purchasing source

**Purple Triangle**: Products that meet ESF’s Environmentally-Preferred specifications, from a Discretionary Purchasing source

**Bounded**: Vendor is a Minority- and/or Women-owned Business Enterprise (NY-Certified, and self-declared)
Staples & ProfTech Ordering

Important!

Please purchase Staples products through ProfTech. ProfTech is a NYS certified MWBE and is able to provide the same items as Staples.

You must have a ProfTech account to make purchases. Contact the Business Office (purchasing@esf.edu) for account setup and for information pertaining to use of this account.

Items from ProfTech in this Guide are separated by those on- and off-contract. On-contract and off-contract items must be purchased in separate orders. You can change product availability by setting the shipping location (top right corner of ProfTech website).

- To order on-contract items, set the Shipping Location to PFT-CC42.
- To order off-contract items, set the Shipping Location to PFT-NC42

Toner Cartridges

SUNY ESF Managed Print Initiative
ESF will implement the SUNY-wide managed print initiative (MPI) in near the future. The MPI will establish print defaults, eliminate locally attached desktop printers, limit printing to essential items, deploy printer monitoring software and centralize campus printing budgets. These changes will reduce waste and provide cost savings. Once the MPI is implemented, the types of printers available for purchase and use on campus will be minimized and streamlined, to ensure standardization across campus.

Once the MPI is live, toner for MPI printers will be automatically ordered for the Department by Toshiba when toner levels drop to 20%. You do not need to contact the Business Office or CNS to restock. Toner cartridges provided by Toshiba will meet EO4 criteria.

ESF recognizes that staff currently use a multitude of printers that are not part of the forthcoming MPI. These printers will be phased out over time, but the Guide includes EO4-compliant toner cartridges for non-MPI printers, beginning on the following page (26).
Office Supplies

The following products are compatible with the most-commonly used printers on the SUNY-ESF campus, as of October 2021. These printers will be phased out over time as the College implements the MPI.

**Printer Model:** HP LaserJet P3015*
**Toner Model:** HP 55X Toner

Nitrile Glove Recycling Program
- Kimberly-Clark Professional
  - RightCycle

Currently, ESF is working with Kimberly-Clark to pilot its RightCycle program and is pushing to purchase nitrile gloves through Kimberly-Clark only, where it makes sense to do so. This program will allow ESF to recycle nitrile gloves. If you would like to be part of the pilot, please contact the Office of Sustainability.

Exterior Stain

4 The Stain Depot
   - Penofin, Verde Interior/Exterior Stain

4 Sherwin-Williams
   - SuperDeck, Interior/Exterior Log Home & Deck Stain

Heated Floor Mats

Heated floor mats are an energy-saving alternative to traditional space heaters. These mats localize warmth for your feet and legs while seated at your desk, they can also be used to melt snow and ice from shoes to prevent slips in the workplace.

Heated floor mats should only be used on tile, laminate, stone, or concrete floors, unless the product has been tested for safety on carpet and rugs.

Cozy Products 12" x 18" 55W/105W Rubber Heated Floor Mat
   - Grainger
NYS EO4 specifies that state entities are **encouraged to use reusable cutlery, dishware, and drinkware, to the maximum extent practicable**. When single use, disposable options are needed, entities should use the environmentally-preferred options included in this guide. Proper disposal (compost or recycling) should be ensured and announcements should be made at events to direct people to compost/recycle materials. Be sure to specify which items are compostable and which items are recyclable!

Similarly, state entities are encouraged to procure food from providers that:

- Have taken the [Taste NY Pledge](#); or
- Are a member of the [Green Restaurant Association](#); or
- Are a member of the New York Environmental Leaders program

A full list of local establishments in compliance with EO4, see the [GreenNY Sustainable Food Establishments in New York State](#) document
Rentable, Reusable Dinnerware
If you are in need of reusable dinnerware for a business related campus event, please rent china, flatware, and glassware from one of the following local vendors instead opting for single-use compostable items.

The Office of Sustainability will strive to cover the entire cost of these rental items, please contact Sue Fassler (scfassle@esf.edu) for information.

For smaller internal campus events, consider purchasing reusable dinnerware from a local thrift store and keeping them in your office for future use. If these items will be used for "personal" events (lunches, birthdays, retirements) then they must be purchased with personal funds. State dollars cannot be used to support these activities.

- Taylor Rental
- Syracuse Tents & Events
- Auburn Party Rental
- Century Party Rental
- A Classic Party Rental
- Ralston Companies
  - China
  - Glassware
  - Flatware

Reusable Takeout Containers

- OZZI
  - O2GO Take Out Containers

- G.E.T Enterprises
  - Eco-Takeouts

- Hubert
  - Reusable Takeout Containers
Food Service & Cafeteria

Reusable cutlery, plates, trays, bowls, cups, and mugs for purchase are not included in the guide due to wide availability. State entities are encouraged to prioritize reusables to the maximum extent possible prior to purchasing single-use compostable versions.

All disposable tableware must be BPI-certified to be compostable at SUNY ESF.

Electronics

**SUNY ESF Campus Electronics Recycling**
Electronics recycling collection bins are located on every floor of every building at the Syracuse campus. The information below can also be found on the collection bins themselves, so it should be easy to properly recycle electronics on campus!

**Please place all product packaging in corridor recycling bins**

The following items are accepted in **electronics recycling bins**:
- Keyboards
- Mice
- Cables/cords
- Ink/toner cartridges

**Batteries** are collected for recycling separately from electronics. Battery recycling bins are located close to electronics recycling bins, on every floor of every building at the Syracuse campus.

**Desk phones and data storage devices** should be brought to 317 Baker.

**TVs, microwaves, monitors, printers, scanners, fax machines or other items without an asset tag** should be brought to the attention of the Facilities Department via [Work Order](#).

**Tablets/laptops, cameras, computers, lab equipment or any electronic item with an ESF asset tag** should be managed by Property Control. [Email Deb Snyder](#).

*Continue to next page*
All laptops, computers and monitors purchased with State or Research Foundation dollars must meet EO4 specifications for computers and displays. The specification contains environmental performance, packaging and recycling criteria.

Among other criteria, computers and displays must have achieved EPEAT Bronze registration or higher to meet GreenNY standards. The College has set a goal of purchasing computers and displays that have achieved EPEAT Gold registration. Therefore, purchasers should strive to meet this ESF goal whenever possible. Please contact Delaney Demro or Sue Fassler if you have questions about EPEAT registered products.

Please contact the Help Desk if you would like to purchase a computer, laptop or monitor. Computing and Network Services (CNS) is able to provide detailed guidance for equipment and associated pricing. Prices can change monthly, so please contact the Help Desk for every computer, monitor or laptop purchase that you hope to make.

Once a purchaser has obtained product information and pricing from CNS, they will submit a purchase requisition to the Business Office for approval.
Preferred Sources

**Toshiba**

**Managed Print Initiative**

ESF will implement the SUNY-wide managed print initiative (MPI) in near the future. The MPI will establish print defaults, eliminate locally attached desktop printers, limit printing to essential items, deploy printer monitoring software and centralize campus printing budgets. These changes will reduce waste and provide cost savings. Once the MPI is implemented, the types of printers available for purchase and use on campus will be minimized and streamlined, to ensure standardization across campus. Printer purchasing will be centralized through either the Business Office or CNS. This Guide will be updated with contact information once available.

**AA, AAA, C, D and 9-Volt Batteries and Battery Chargers**

Updated as of November 2022

Executive Order 4 encourages the use of electronics that do not require batteries, when a viable alternative exists. Before purchasing replacement batteries, please see if it feasible to replace the item with a rechargeable alternative for continued use. Purchase batteries in the largest reasonable quantity to minimize required packaging.

Proper disposal of single-use and rechargeable batteries is required.

Apparel

If you find or currently use environmentally preferred versions of other types of apparel, please email Delaney Demro (dndemro@esf.edu) or Sue Fassler (scfassle@esf.edu).

- Shirts
- Pants
- Shoes
- Hats
- Accessories

Per NY EO4, environmentally preferred apparel includes one or more of the following:

- Contains recycled material
- Contains organic material
- Does not contain per- and polyfluorinated substances (PFCs)
- Does not contain added anti-microbial or anti-odor agents
- Are not labeled as "dry-clean only"
- Carries one or more third-party certification
  - see NY EO4 for acceptable 3rd party standards
- Limits the amount of packaging and uses packaging that complies with Environmental Conservation Law section 37-0205

Apparel

Executive Order 4 encourages NY state entities to minimize the purchase of apparel, including giveaways and promotional items, and to only purchase the least amount necessary.

State entities are encouraged to reuse and recycle garments at their "end of life" by recirculating it for use by other employees or recycling garments through a textile recycling program.

Custom Screen Printed and Embroidered Apparel

- **Print Natural**
  - Offers custom screen printing using GOTS-certified organic plant- and water-based inks
  - Offers printing on EO4-compliant t-shirts, sweatshirts, and totes made from:
    - Organic, GOTS-certified cotton apparel by Soft Shirts and Royal Apparel
    - Recycled fabric apparel from econscious
    - FLA accredited cotton apparel from Bella + Canvas

- **Holy Shirt!** - Syracuse, NY
  - Offers custom screen printing and embroidery on a wide variety of EO4-compliant apparel:
    - Polos, knits, t-shirts, activewear, fleece, sweatshirts, outerwear, hats, bags, and accessories
    - **Important:** If ordering embroidered items, request cotton thread
  - Available apparel is made from:
    - OEKO-TEX 100 certified materials by Gildan, Hanes, and Fruit of the Loom
    - Bluesign certified materials by Nike
    - Organic cotton and recycled content: allmade,
    - FLA accredited apparel from Bella+Canvas and New Era

Lab Coats

- **Fisher Scientific**
  - 100% Cotton Lab Coats
    - **Important:** Personal safety is always first priority. **Always** use the appropriate personal protective equipment (PPE) for your type of work.
    - 100% cotton lab coats are environmentally preferred and are only encouraged to be used when the nature of your work allows.
Apparel

New Items as of November 2022

Reusable Bags
When ordering reusable bags, make sure to request that they are printed with water- or vegetable-based inks to meet the GreenNY specification.
